Dump-It Dumpster Rentals, a company based in Pembroke, NH, is pleased to announce that they are offering dumpster rental services in Pembroke and Central New Hampshire. Renting a dumpster is essential because homeowners and businesses can't depend on their local waste management service to work with them and help clear off their waste or junk promptly. Dumpster rental is recommended if one has an accumulation of waste that have to be cleaned up as soon as possible. More about the company can be gleaned from their Facebook page at <https://www.facebook.com/DumpItDumpsterRentals/>.

Matthew Couto, founder and owner of Dump-It Dumpster Rentals, says, "Whether you're looking for a local dumpster rental company in Central NH to clean up your house or construction debris, we provide you with the perfect roll-off dumpster rental suitable for your needs. Our roll-off containers come with a flat fee to enable you to determine what it will cost you to rent a dumpster and set the proper budget. Renting a dumpster can be beneficial, especially if you are embarking on a project such as remodeling your home, tackling a major landscaping project, or disposing of a large amount of trash taking up valuable space in your home by moving out, demolitions, and other needs."

They are three available dumpster sizes from Dump-It Dumpster Rentals. These are the 10 yard dumpster, 15 yard dumpster, and 20 yard dumpster. The 10 yard dumpster measures 8 feet in width by 12 feet in length by 3.5 feet in height and can contain up to four times that of a pickup truck load. It is often used for small-scale projects, such as: small home renovation projects; outdoor yard cleaning projects; small home remodeling activities; and room decluttering and clean out projects. It is frequently used for relatively small projects, such as: repair of a sidewalk or driveway; removal of waste and junk from the yard waste; different types of home renovation projects, such as the remodeling of a laundry room; clean out of a huge room, such as a bedroom, garage, bedroom, attic, or basement; removal of flooring, walls and carpet; and installation of kitchen cabinets.

The 20 yard dumpster measures 8 feet in width by 14 feet in length by 6 feet in height and can contain about eight times that of a pickup truck load. This is usually used for home remodeling and construction projects, such as yard cleanups, renovation of the master bedroom, kitchen remodeling, garage clean outs, basement clean outs, attic clean outs, and other similar projects.

That the service they provide has been very satisfactory is evidenced by the rave reviews they have been receiving from their clients. They have an overall rating on Google of 5.0 out of 5 stars.
