

UK's Penrose Global Brands Announces Artist Paint Brushes Now Available With Free Pouch

November 17, 2015

November 17, 2015 - PRESSADVANTAGE -

Penrose Global Brands, a business in Cheltenham, United Kingdom, have updated their highly popular set of artist paint brushes. Those who purchase the set will now be provided with a free case to comfortably hold the brushes in. The business feels that this is more befitting of the quality of their brushes.

"We felt that our high quality brushes deserved a case of equally high quality," says Kieron Penrose from Penrose Global Brands. "This will also help to keep the brushes in good condition, as artists will probably use them again and again. Furthermore, it makes it much easier to take the brush set along if anyone wanted to paint outside."

The artist paint brush set has been handmade for extra quality. The set includes a combination of brushes, which makes it suitable for water colors, oil painting and acrylic painting. It also comes with an extended one year refund or replacement warranty and a full satisfaction guarantee. Those in the UK can order it with free postage and packaging as well.

The company is grateful to its thousands of happy customers. Almost every one of these has left an artist paint brushes review to express their satisfaction with the product. "These are the best brushes that I own!" says Gabrielle. "I rarely write amazon reviews, but I wanted to give the heads up to other artists about the high quality of these brushes. They make for beautiful strokes and work with my watercolours so well. I really like the package they arrived in, too. They're easy to take around with me when I want to paint anywhere and there is large variety in brush size and shape. I really couldn't be happier. I've already recommended these to my illustration team."

The paint brush set is an exclusive set that includes 13 handmade, individual and unique brushes. They are soft as sable and include flat, round, fan and filbert brushes. The long handles are made of an elegant beech wood with aluminum ferrules, which are tightly put into place. The set includes six synthetic brown bristle brushes and seven natural bristle brushes.
