

EPS Landscaping & Tree Service LLC Provides Lawn Care, Landscaping and Tree Services

August 10, 2022

Pembroke Pines, Florida - August 10, 2022 - PRESSADVANTAGE -

EPS Landscaping & Tree Service LLC, a company based in Pembroke Pines, FL, is offering lawn care, landscaping, and tree services in Pembroke Pines and in the Broward County area. Pembroke Pines is a type of warm and friendly community in Broward County that seems like a small town but actually has all the amenities available in a big city, which means there is a wide range of opportunities for leisure and recreation. This also means that landscaping is a big deal for homes in this city. People in this city are fond of outdoor activities, such as going for walks, biking, golf, and other sports activities. Most parks and yards are expertly landscaped, which means that a yard that is not properly taken care of will stand out but not in a good way.

As part of their lawn care services, they are offering lawn maintenance. Regular grass trimming and lawn mowing can ensure that the grass looks great. For the homeowner, lawn mowing can be a hassle, particularly under the hot sun of Florida. Fortunately, it is possible to hire the services of a professional lawn care company like EPS. They can make sure that the lawn will be in the best condition through lawn maintenance, including reseeding, fertilization, and even weed and pest control.

Another important type of service offered by EPS is tree services. Trees are part of the landscape for homes in Pembroke Pines. And trees offer many benefits, including air purification, noise reduction, reduction of stormwater runoff, habitat creation, and carbon dioxide fixation for photosynthesis. These include palm trees, which are common in homes in Florida. Thus, the tree professionals at EPS are also experts in palm tree services. Tree services include tree trimming, removal of dead branches, tree removal, and stump removal. Tree removal may become necessary when a tree is either dead or dying, when the tree is a danger to property and people, when its root system has failed, and more. EPS will provide efficient and safe removal of the tree.

In Florida, irrigation and sprinkler systems are also a necessity in view of the hot and sunny weather. Such systems will not enhance the appearance of the yard and improve the home environment, but these will also have a positive effect on the larger environment. One of their experts will visit the home, conduct a number of tests and will divide the property into various zones, depending on water requirements for each portion of the yard. While having a lawn sprinkler system installed may seem like a luxury, it will actually pay for itself in terms of the time saved for lawn care activities.

EPS Landscaping & Tree Service is a family owned and operated service company in Pembroke Pines, providing lawn care, tree services, and landscaping in the Broward County area, particularly in Pembroke Pines, at reasonable prices while guaranteeing that they will always provide the best quality services. They have been in the business for more than 20 years and they serve different areas in Broward County, including Southwest Ranches, Coral Springs, Hallandale Beach, Deerfield Beach, Dania Beach, Hollywood, Pompano Beach, Pembroke Pines, and Fort Lauderdale. They are a full-service landscape and tree services company that has earned an excellent reputation for being a competitively priced, reliable and professional company. They can assure customers that they will always provide honest estimates and homeowners and other property owners can rest assured that they will always receive the most affordable price in Pembroke Pines and Broward County for the kind of service that they require.
