

Simpsons Releases Update to Checklist on Moving to New Zealand

August 16, 2022

Dartford, Kent - August 16, 2022 -

Simpsons International Removals Ltd, based in Dartford, Kent, UK, has announced that they have recently updated their New Zealand checklist section on their removals page. This convenient checklist will help with preparing for the move to New Zealand and guide customers on personal arrangements and who to tell when moving overseas. More information about the checklist and removal service to New Zealand can be found here: <https://www.simpsons-uk.com/removals-to-new-zealand>.

Issues that need to be addressed well ahead of time include work permits, currency transfer, insurance for valuable possessions and transportation of pets are mentioned in the updated checklist. The checklist also advises those on the move to tell their insurance companies, doctors, and others that they will be moving to New Zealand.

Simpsons International Removals also provides a wide range of services to help those looking to move overseas. This includes a move manager who will be guiding customers through the process of removals and

help with customs clearance and documentation. These services are especially helpful for those on the move following the recent news that the New Zealand international border is open for students, visitors and work applications.

John Lee, General Manager of Simpsons International Removals, says, "Overseas removals across miles of ocean to New Zealand are far more complicated than moving within the UK. But by using a specialist international removal company to New Zealand like Simpsons, you can be sure your household belongings and furniture removals are in safe hands. At Simpsons International Removals we have many years of experience in helping people with their overseas removals to New Zealand. We handle all kinds of moves from small removals to full household removals. Get a quote today from a trusted removal company to start the process of moving abroad."

Simpsons International Removals Ltd has developed a reputation for being a reliable international removal company for moving customers' belongings to New Zealand. Their comprehensive New Zealand international removals service includes door-to-door pick-up and delivery to your new home; personally assigned move manager; export wrapping and packing services; professionally trained international moving packers and more.

Customers also receive the option of using a part load service or full load. Part load services to New Zealand involve sharing the same containers with other customers who are moving to New Zealand. This service will be more cost-effective in contrast to full load services and is typically used by customers for small household removals and also for large household removals. The removal costs will also be based on the volume of goods to be sent and the shipping method, such as air freight or sea freight. Customers are able to receive a quick quote using an international removals cost calculator or can book a home survey or video survey to receive a more accurate quotation for the move to New Zealand.

Simpsons have an extensive international network that allows them to provide an excellent service to New Zealand and overseas locations. Those who wish to learn more about the removals services from the UK to New Zealand can visit their website at <https://www.simpsons-uk.com/removals-to-new-zealand>, or contact them through the phone or via email to start the process of moving abroad from the UK.
