

24 Hour Plumbing Services

24 Hour Emergency Plumbing In Los Angeles Now Guarantees Service In One Hour

November 18, 2015

November 18, 2015 - PRESSADVANTAGE -

24 Hour Plumbing in Los Angeles is proud to announce that they have further improved their highly popular emergency response service. They now guarantee that they can attend a problem within two hours of receiving a call. They are open 365 days per year, 24 hours per day. Further details are available through their website on 24hourplumbinginlosangeles.com.

"Many plumbers in Los Angeles offer a 24-hour emergency response service," says Garth Renolds from 24 Hour Plumbing in Los Angeles. "We are the only one guaranteeing that we will be there within two hours and we cover all of Los Angeles County."

The company has long been one of the most popular Los Angeles plumbers because of their high quality service, professional staff and friendly attitude. They have worked with thousands of customers, who have all been very pleased with the standard of work that has been delivered. This is also thanks to the fact that the company offers a 100% satisfaction guarantee on all their services.

Most of the customers the business has served have also taken the time to leave supportive reviews.

"Probably the best plumber in all of Los Angeles," says Max Jenkins. "I had a clogged drain in my house and my landlord would not pay for it. It ended up only costing me \$45 and only 30 minutes of my time. These guys are affordable and my plumber Jason was very respectful."

Now that 24 Hour Plumbing In Los Angeles offers a one hour response service, they expect that their business will grow significantly. In order to be able to meet their promise, they will likely to have to hire more qualified plumbers. As such, they are also pleased to announce that they will be supporting the growth of the local economy in Los Angeles. They encourage plumbers, therefore, to keep their eyes on their website and other advertisement channels in order to remain up to date with any newly announced vacancies.

The company is looking forward to servicing more people in Los Angeles. Helping them resolve their plumbing issues is their passion, and this is noticed and appreciated by their clients.
