Indianapolis, Indiana - August 16, 2022 - PRESSADVANTAGE -

New York, August 16, 2022 ? Inc. Magazine today announced that The BAM Companies has ranked yet again on its annual Inc. 5000 list. This is the fifth consecutive year that the real estate firm has landed on the prestigious list, this time ranking 3,571 with a three-year revenue growth of 144.5 percent.

The Inc. 5000 offers a glimpse of the most successful independent small businesses in the United States. It is an exciting look into the American economy?s most promising players. Many brands that are now considered household names were once featured in the Inc. 5000 list, including Microsoft, Under Armour, Intuit, and Zappos.

?It truly is exciting. The best way I can describe it is kinda like being a proud dad,? said Ivan Barratt, Founder and CEO of The BAM Companies. Barratt gave credit to his team and everyone in the organization that have made The BAM Companies one of the fastest-growing companies in the United States today.

?I do get the credit as Founder and CEO. But, the people who work here have bought into our mission of having a culture where people want to work in property management, capital, and construction. Those folks have taken that baton and taken it farther than I ever could?ve on my own. They really deserve way more credit than I do these days.?

The companies on the 2022 Inc. 5000 have been highly competitive within their respective markets, and The BAM Companies is no different. It has proven itself as one of the most consistent real estate firms for accredited investors. Making it onto the Inc. 5000 for the fifth consecutive year proves that The BAM Companies is one of the companies to watch when it comes to the real estate industry.

?It?s so fun to sit back like a proud dad at a big game watching their child win. It?s humbling, it?s exciting. Sometimes when I think about it, it gets me a little misty-eyed. I couldn?t be more proud of BAM.?
