

NYC Drunk Driving Accident Attorney Samantha Kucher Explains Drunk Driving in New York

August 16, 2022

August 16, 2022 -

NYC drunk driving accident attorney Samantha Kucher releases a new article (https://www.rrklawgroup.com/car-accident-lawyer/nyc-drunk-driving-accident-attorney/) explaining the meaning of drunk driving in New York. The lawyer mentions that there are a lot of dangers surrounding drunk driving in New York. Driving a car while intoxicated is a reckless act and it is against the law. A conviction for drunk driving can make a significant impact on a person?s life.

?Closer to home, New York sees a substantial share of injuries and fatalities resulting from accidents caused by driving drunk, with the CDC reporting 3,752 alcohol-involved deaths from 2003 to 2012 in New York state alone. As for New York City, the NYPD reported that in 2018, there were 2,683 accidents involving alcohol throughout the city,? says the NYC drunk driving accident attorney.

According to the lawyer, drunk-driving accident victims can sustain serious injuries. This includes spinal cord injuries and brain injuries, fractures, and internal organ damage. Soft tissue injuries can also be caused by

drunk driving accidents.

Attorney Samantha Kucher says it is important to have an experienced lawyer to help victims with drunk driving accidents. This is especially true if they are seeking damages for injuries. A victim shouldn't have to fight insurance companies for what they are entitled to, and that is where an experienced lawyer might be of assistance.

Attorney Kucher states that victims must ensure they get enough compensation to cover the costs of their injuries before they settle with insurance companies. The victim might not receive the compensation they deserve if there is no negotiation. Insurance companies could lower their payouts.

According to the accident lawyer, ?Driving drunk is reckless and endangers everyone else sharing the road. It is also against the law. In NYC, we have extensive and complex DUI criminal laws, with charges ranging from infractions to felonies, resulting in penalties that result in license suspension, significant fines, and, often, jail time. If the drunk car driver caused serious injuries or a fatality, the criminal charge will be even more severe.?

Lastly, the accident lawyer emphasizes the importance of having an experienced lawyer if someone has been a victim of a drunk driving accident. Having a skilled lawyer may be able to help the victim receive the compensation they deserve.
