

Best Buds CBD Store Announces New HHC Product Line and Some News About Delta 8 Products

September 06, 2022

September 06, 2022 - PRESSADVANTAGE -

Best Buds CBD Store, located in Fort Lauderdale, FL, is excited to announce its new HHC product line. HHC, or hexahydrocannabinol is one of the latest cannabinoids available on the market. Their new HHC gummies and edibles can offer a relaxing high slightly stronger than the delta 8 THC but much less potent than the high provided by THC-O. HHC is a hydrogenated derivative of THC or tetrahydrocannabinol, providing it with a stable molecular structure. This means that it takes a long time for it to degrade and lose its better potency. The store has also announced some promotions for their new delta 8 THC cookies and nerds ropes for those who order a 3-pack. More about the new HHC product line can be gleaned from <https://bestbudscbdstore.com/collections/hhc-thc>.

HHC is a minor cannabinoid, and although it can be found naturally in cannabis, the amounts present are too small to justify its extraction in terms of costs. Commercial HHC is produced from hemp-derived CBD using specific chemical processes. Chemist Roger Adams discovered HHC in the 1940s. He produced HHC by adding hydrogen to the THC molecule, which caused some changes to its physical properties. This process is known as hydrogenation. It alters the structure of the delta 9 THC by using two hydrogen atoms to replace a double bond, making it more stable and modifying its molecular weight. This means that HHC is less prone

to heat and UV radiation damage and, therefore, has a longer shelf life.

An advantage of HHC over the delta 8 and delta 9 THC is that it is not technically a THC but provides similar effects. Users have reported that, in general, the high caused by HHC is something between delta 8 and delta 9 THC. The HHC products available from the Best Buds CBD Store are: HHC Neon Bear Gummies; HHC Gummy Blue Drops; HHC Mini Rainbow Bite Gummies; HHC Peach Rings; and HHC Gummy Apple Rings.

Meanwhile, they are offering a promotion for their Delta 8 THC Rainbow Nerds Rope. They pass on the savings to the customer when they order a 3-pack of these sweet and sour-tasting nerds that offer delta 8 THC effects. More about this can be gleaned from <https://bestbudscbdstore.com/collections/delta-8-gummies/products/tko-delta-8-rainbow-nerds-rope>. In addition, best Buds CBD Store is also offering the same promotion for their delta 8 THC cookies, such as their Chocolate Delta-8 THC Cookies, Cinnamon Delta-8 THC Cookies, and Peanut Butter Delta 8 Cookies.

Delta 8 THC has recently become more popular because it is less potent than regular THC. Thus, it can provide a mild state of euphoric high, and it generally doesn't cause anxiety or paranoia. The Best Buds CBD Store ensures its products are produced from the highest quality hemp. All of their products contain less than 0.3 percent THC.; the legal limit indicated in the 2018 Farm Bill. This federal legislation has made the hemp plant and all its derivatives federally legal as long the products contain less than 0.3 percent of regular THC, which is delta 9 THC. Furthermore, in May 2022, the 9th US Circuit Court of Appeals confirmed that delta 8 THC is legal under the Farm Bill, including all other compounds and hemp derivatives, as long as they don't exceed 0.3 percent delta 9 THC.

They want to emphasize that their delta 8 gummies and other delta 8 products can offer people a way to feel emotionally uplifted and provide a natural calming effect, enabling them to balance their emotions more mindfully. Those who are interested in the delta 9 cookies can go to <https://bestbudscbdstore.com/collections/delta-8-gummies/products/chocolate-delta-8-cookies>.

Best Buds CBD Store is an online store that provides high-quality CBD gummies, edibles, and other related products. They can provide isolate and full-spectrum CBD gummies in various designs and flavors.
