

# Coastal Bend Dumpsters Traits the Key to Success for Corpus Christi Dumpster Rental Service

*August 22, 2022*

August 22, 2022 - PRESSADVANTAGE -

Locally owned and operated Coastal Bend Dumpsters have been meeting and exceeding the trash and junk removal needs of those in their area for many years now. In that time, they have established not only a reputation for providing superior Corpus Christi dumpster rental services but also for having traits that make them one of their area's most well-rounded businesses. The company frequently delivers its fleet of heavy-duty containers to help support residential, construction, or commercial projects throughout the area.

Something that has been a huge part of Coastal Bend Dumpsters according to the business's owner Ryan Palacios who says, "We know that homeowners, business owners, and contractors in the Corpus Christi area have more than one option to choose from when it comes to removing trash and junk during a cleanout project. That's why long ago we took it upon ourselves to not only provide our customers with top-notch dumpster rental service but also offer them high-quality customer care and an easy and seamless trash removal experience." He added that when you throw into the mix that they are a very accommodating company and one that operates with integrity, it's easy to see why the number of dumpster rentals that they provide has increased steadily each year.

When asked how he knows the company is getting it right when it comes to excelling in many customer service areas, Palacios stated that one must look no further than the reviews that have been left by their customers. Many of them rave about the all-around quality of the service that the customer received. Josh Dennis wrote in his 5-star review, "Let's talk about great customer service, amazingly affordable and speedy service. Felt like the dumpster was here before I hung up the phone. I highly recommend everyone use this company for any future trash and junk removal projects. Velma Barrios proclaimed, "Rented a dumpster to clean out my storage, used Coastal Bend Dumpsters. It arrived on time and the price was very reasonable not to mention it was big enough for all my junk & then some. Highly recommend them and I will use them again if needed. No job too big or too small call them if y'all need help."

Palacios stated that they will even do their best to accommodate any last-minute requests for a dumpster rental Corpus Christi can depend on because they know that the need can arise for one almost out of the blue. Something that was attested to in this glowing review from Angelica Salas who said, "This company is one of the best to deal with. I was in a pinch and looking for a dumpster on a Friday morning. The owner came through for me to deliver the dumpster Friday night and we were able to get the project finished that we needed to be done over the weekend. We will be using them again." These reviews were taken from the company's Google Maps Business Listing.

Palacios also talked about how they like to make renting a dumpster as straightforward as possible. This includes being able to order a dumpster rental over the phone during business hours or online from a computer or smart device 24 hours a day. He mentioned that having only one size dumpster rental option also helps take away some of the confusion that is commonly found with renting a dumpster. They carry dumpsters that are a generous sized 13'6"x101"x75" and they can be had for a flat rate drop-off and one-day rental rate. There is also a two-ton weight allowance for each one. He says that there are only small extra charges for those that need additional days with a dumpster or would like to place more weight in them. Their dumpsters can be used for such junk and trash cleanup projects as attic cleanouts, garbage removal, mattress disposal, construction debris disposal, yard waste removal, trash removal, and more.

The company owner and founder of this small family-owned business also stated that they will continue to do what it takes to provide convenient, courteous, and cost-effective dumpster rentals in Corpus Christi, TX, and the surrounding areas. More on the company's dumpster rental services can be seen on their website or on their Facebook page.
