

Premier Detroit SEO Named Top Performing SEO Company In South East Michigan

November 18, 2015

November 18, 2015 - PRESSADVANTAGE -

Premier Detroit SEO of Metro-Detroit, Michigan, has recently been named the top performing SEO company in the southeastern region of the state. The company works with clients to provide custom bespoke SEO services in a done-for-you model in and around the Motor City.

John Susko, founding partner for the Detroit SEO company, states, "We are actually based in, and therefore know and understand, the Detroit metro area. This gives us an edge over other SEO companies when it comes to local services."

Premier Detroit SEO assists businesses in ranking higher in search engines for specific keywords, which Susko says is a critical approach. He states that when SEO is done properly, business owners will see more traffic to their sites from customers who are specifically searching for what those businesses have to offer.

The company states that they have worked with many businesses over the years, and their high number of testimonials is likely to be one of the reasons they are considered as offering the best SEO in Detroit. SEO expert Susan Anne MacDowell, states, "I worked with John as a partner with Premier Detroit SEO on a

project involving YouTube ranking. He is insightful and has excellent SEO skills, and adds value to every discussion he participates in. His agency produces results for clients."

The Detroit SEO marketing company works with a number of different businesses of all sizes that want a greater online presence. Susko states that their years of experience, and their use of strategies that have proven effective over those years, are what make them stand out from other companies.

In addition, he says that being a local company is what really pushes them in front of their competition. "It's why we're considered the best at what we do in our area," he states. While other SEO companies are available, Premier states that because they are local to Detroit, they know better how to assist local companies in reaching their online business goals; a fact that is likely why the company has been named the best SEO company in the region.

More about Premier Detroit SEO can be seen on their official website.
