

BeanStalk Hair Loss Products Supports National Psoriasis Foundation "Walk for A Cure" Fundraiser

November 16, 2015

November 16, 2015 - PRESSADVANTAGE -

McDonough, GA (November 17, 2015) - Beanstalk Hair Loss Products supported the first ever Team NPF Walk in Atlanta held on Saturday October 31, 2015 at the Grant Park.

Led by NPF Psoriasis Community Ambassador Alisha Bridges, the team had a target of \$50,000 and managed to raise over \$40,000. Described as an unheard of feat for a first year event by the National Psoriasis Foundation (NPF), Alisha's effort was rewarded with the NPF's 2015 Outstanding Volunteer Leadership award.

Also a sufferer of Psoriasis, Alisha is doing her best to raise awareness of the condition through her psoriasis blog, <http://www.beingmeinmyownskin.com>. Her efforts to educate and inform the public have not gone unnoticed and she is recognized by Healthline.com as one of the top psoriasis bloggers.

Bean Stalk Hair Growth products is the brainchild of Master Cosmetologist Monique Deering, who came up with the idea after working with women experiencing hair loss or stunted hair growth issues. Commenting on the company's decision to support the NPF Walk, Ms. Deering said: "The BeanStalk Product line was created out of necessity to provide a hair care solution for women with Psoriasis, Eczema, Alopecia. We wholeheartedly support the move to find a cure for Psoriasis and are extremely proud to have been among the many supporters of this important event."

Psoriasis is a skin condition that causes red flaky, crusty patches of skin covered with silvery scales. The condition may cause itching and scratching the scalp may lead to hair loss. Bean Stalk Hair Growth Products offers a potent hair loss serum designed to tackle hair loss resulting from diseases such as psoriasis. Formulated from a fusion of chemical free, organic based ingredients, the Bean Stalk Hair loss treatment is completely safe to use on sensitive skin. It gently soothes and moisturizes the scalp, while promoting noticeable hair growth.

Bean Stalk Hair Growth Treatment has been tested in professional salons for 3 years and has delivered dramatic hair growth results for over 2000 women. With a promise of hair growth within a matter of 2 weeks, Beanstalk Hair Loss Treatment has helped several individuals across America suffering from hair loss.

One user of the product, Toushana G. summed up the overall effectiveness of the product. She said: "I was diagnosed with alopecia areata two years ago. I had tried EVERYTHING or so I thought. I have been using Beanstalk for one month and it's awesome! My hair is showing vast improvement. I can see hair beginning to grow where it was totally bald. I can't believe one tiny bottle can reverse two years of pain and struggle. I have replaced every hair care item with Beanstalk and I use ONLY Beanstalk products."

Bean Stalk Hair Growth Products Company is currently in the process of launching their hair growth vitamins, which they are confident will be just as effective as the hair growth serum. Plans are also afoot to produce a shampoo, conditioner and leave-in conditioner treatment to accompany the serum and vitamins.

Bean Stalk Hair Growth products continues to support people with psoriasis by extending a Amazon 67% discount code: 6QMRHNHB to proud members of the psoriasis community. This show of support strengthens the products brand image in the psoriasis world.
