

The Farmacy Botanical Shoppe Presents Reggae D8 Night Where Guests Can Enjoy Cannabis-Infused Drinks in San Antonio

August 30, 2022

San Antonio, Texas - August 30, 2022 - PRESSADVANTAGE -

The Farmacy Botanical Shoppe, located in San Antonio, TX, is pleased to announce Reggae D8 Night, an event featuring live reggae music and hemp-derived cannabis 'motcktails'. The event features local band Kaya Kotura with special guest Stonetribe at the only outdoor canna-bar in San Antonio. Guests can relax and sip on cannabis-infused sparkling beverages in an urban hemp farm setting on September 9, 2022 from 8:00 pm to 11:00 pm. Entrance is free to those who are over 21 years old and the event is pet-friendly. While listening to live reggae music or playing games, guests can grab a CBD, delta 8 THC or kava beverage. The event is alcohol-free, but legal cannabis products may be purchased and consumed right there on site. This event offers a chance for people to enjoy THC and CBD drinks in San Antonio. Admission will be free and beverage samples will be available.

CBD beverages available from The Farmacy Botanical Shoppe include: Stay Cool CBD Carbonated Beverages, Botanical Brewing Kava and THC Sparkling Beverages, and Structure Water Soluble CBD beverage additive.

Stay Cool CBD Carbonated Beverages are locally made in Austin and are juice-based CBD drinks that are low in sugar. They contain 25 mg of broad spectrum CBD that is blended with natural ingredients in order to provide a great tasting and relaxing beverage. An important ingredient of these drinks is Kava, which is a plant grown throughout Fiji and is popular for its relaxation benefits. It suitably complements the CBD and the sparkling sweetness of the drink offers a wellness beverage that can benefit both the physical body and the mind. It is currently available in four flavors: Strawberry Bliss; Mango Passion; Pineapple Wave; and Lemonberry Blast.

The Botanical Brewing Kava, Delta 8 and Delta 9 Sparkling Beverages provide an alcohol-free infused drink from Botanical Brewing Co. These are "mocktails" that offer a tasty alternative to alcoholic drinks. Infused with either Kava or THC, people can simply relax and enjoy the calm and social benefits of these sparkling beverages. Kava is extracted from the root of the kava (*Piper methysticum*) shrub, which is native to the South Pacific. Traditionally, kava is ground into a paste or powder and then mixed with tea to provide an herbal remedy that helps relieve stress and anxiety and allow people to sleep better. The effects of kava include sleepiness, feelings of wellbeing, and muscle relaxation. It is popular for its calming and euphoric effect. THC is a psychoactive compound found in cannabis that is known to produce feelings of euphoria. The kava and THC drinks are currently available in six different flavors.

The Structure Water Soluble CBD beverage additive is guaranteed to be free of THC and allows the user to add a dose of CBD to any beverage. This THC-free water-soluble CBD formula contains 20 mg of CBD in one full dropper and is a great alternative for those who don't like taking CBD under the tongue or who want something that is easy to take while they are on the go.
