

Fix-It Right Plumbing Expands Technician Training in Critical Service Areas in Geelong

August 30, 2022

CARRUM DOWNS, VIC - August 30, 2022 - PRESSADVANTAGE -

Fix-It Right Plumbing is expanding its plumber technician training to critical service areas including blocked drains. The plumbing company has recently completed its blocked drainage system training in Melbourne in July 2022. They are now offering similar training to their plumbers in Geelong.

Fix-It Right Plumbing was established in 2007 in Melbourne and has since become one of Australia's largest and most popular plumbing companies. The company has since expanded to serve Adelaide, Canberra, Geelong, the Bayside Suburbs, the Northern Suburbs, the Eastern Suburbs, the Western Suburbs of Melbourne, and the Mornington Peninsula.

The Geelong plumbers at Fix-It Right Plumbing have improved their skills and knowledge in a variety of areas to better adapt to any possible plumbing problem. As a result, they can assist customers with blocked drains in Geelong - and hot water access as well as burst pipes and leaks.

Training will ensure that Fix-It Right Plumbers are at the forefront of their profession to better serve the homes of thousands across Australia. In July 2022, a Fix-It Right Plumbing representative stated that all their plumbers are not only qualified and registered, but will receive continuing specialized plumber training to better target and address issues effectively.

Drain cleaning has been an area the team has targeted for specialization. With the program's success in Melbourne, the Geelong plumbing team is next to improve and enhance their technical skills with unblocking drains. No matter the size, Fix-It Right Plumbing has several methods of clearing drain blockages, including water jetting, cable machines, and chemical drain clearing products.

As part of training, the Fix-It Right Plumbing team uses only top-quality tools and equipment from industry-leading brands like Rigid, The Jetters Edge, and Brawoliner Relining Equipment. A Fix-It Right

Plumbing representative states, "Because we offer Pipe Relining, we can fix issues with pipes in difficult to access places like underneath houses, near pools, under driveways, etc."

The plumbing company offers upfront pricing, qualified and experienced plumbers, fully stocked service vans and toolkits, flexible payment options, and knowledgeable service. With a friendly and inviting staff, Fix-It Plumbing remains dedicated to providing the best possible service to its customers. This dedication has proven successful as they are one of the top-rated plumbers in Geelong, Victoria, regarding reviews, ratings, reputation, and customer satisfaction.

Fix-It Right Plumbing attributes its successes and loyal customer base to its ongoing efforts to improve the company. Tradies News listed the company as one of the top five plumbers in the Melbourne region in July 2021. Fix-It Right Plumbing doubled the size of its new headquarters in November 2021. This allowed for more office and factory space and expanded the services and team. The company had over 1000 reviews and an average of 4.9 stars as of summer 2022. The business began offering plumbing services to Adelaide in March 2022 and has proven to be a staple of the South Australian business community.

Fix-It Right Plumbing has maintained its commitment to providing top-quality customer service throughout the COVID-19 pandemic. However, it also adhered to the strict regulations necessary to ensure the safety of the company's employees and customers. Fix-It Right Plumbing has built brand trust and retained loyal customers by providing high-quality services, flexibility, adaptability, quality, and attention to detail.
