In Adelaide, Fix-It Right Plumbing Expands Technician Training in Critical Service Areas

August 30, 2022

Breakwater, Victoria - August 30, 2022 -
To enhance service in critical areas, Fix-It Plumbing technicians in Adelaide are undergoing drainage system training and instruction this summer.

In July 2022, drain cleaning has been one of the first areas the team has targeted for specialization and deep expertise. In addition to Adelaide, company technicians are already undergoing similar blocked drains training in Melbourne and Geelong.

Founded in 2007 in Melbourne, Fix-It Right Plumbing now provides extensive plumbing and maintenance services across southern Australia in Adelaide, Canberra, Geelong, the Bayside Suburbs, the Northern Suburbs, the Eastern Suburbs, the Western Suburbs of Melbourne, and the Mornington Peninsula. Fix-It Plumbing offers services like clearing blocked drains, fixing hot water concerns, leak detection, repairing burst pipes, and more.

The Australian company is committed to the continuous education of its Adelaide-based plumbers and technicians to better serve the homes and businesses of thousands across southern Australia. Fix-It Right Plumbing aims not only to employ qualified and registered technicians, but also to ensure they receive continuing specialized training to better target and address issues effectively. Better trained technicians have improved attention to detail, can more comprehensively identify and address concerns, and provide optimized customer care.

As part of the blocked drains training program, technicians are instructed on improved techniques for clearing blockages, including using water jetting, cable machines, and chemical drain clearing products. The plumbing team uses only top-quality tools and equipment from industry-leading brands like Rigid, The Jetters Edge, and Brawoliner Relining Equipment. Pipe Relining, in particular, allows the technicians to access difficult-to-reach places like beneath houses, near pools, and under driveways.

The company provides upfront pricing, experienced and qualified plumbers, fully stocked service vans, toolkits, and flexible payments options. Fix-It Plumbing is committed to providing excellent customer service.

Fix-It Right Plumbing attributes its loyal and growing customer base to its ongoing efforts to improve the company. Tradies News listed the company as one of the top five plumbers in the Melbourne region in July 2021. And in November 2021, Fix-It Right Plumbing doubled the size of its new headquarters allowing for more office and factory space and expansion of the services and team. The company has over 1000 reviews with an average of 4.9 stars as of summer 2022. They also began offering plumbing services to Adelaide in March 2022 and providing improved training methods to its technicians. The Fix-It Right Plumbing Adelaide crew has proven to be a staple of the South Australian business community.

In addition, Fix-It Right Plumbing?s attention to detail and care for its customers has extended to its commitment to providing top-quality customer service throughout the pandemic. The Fix-It Right Adelaide plumbers and technicians have adhered to the strict COVID-19 regulations to ensure the safety of the company?s employees and customers.

Contact Fix-It Right Plumbing?s friendly customer service staff for more information on services and technician training.
