

Cicoria Tree and Crane Service Offers Certified Arborist Consultation

September 07, 2022

September 07, 2022 -

Cicoria Tree and Crane Service, Inc., a tree service company based in Beverly, MA, wants to point out that one of their important services is certified arborist consultation. Their certified arborists are qualified to conduct tree risk assessments and they are members of the American Society of Consulting Arborists. Services offered by their certified arborists include: tree vs. people conflicts; people vs. people tree conflicts; tree disorder diagnosis; hazard tree appraisal; tree inventory; landscape appraisal; construction planning; invasive species identification; expert testimony; tree & shrub ID; and tree dispute resolution. They provide their services to residents of the North Shore of Boston and Essex County.

Their certified arborists have earned the International Society of Arboriculture (ISA) Tree Risk Assessment Qualification (TRAQ), which is a voluntary qualification program for training and evaluating candidates in a specialized field of arboriculture. Arborists with the ISA TRAQ credential are recognized by the public and their peers as a tree care expert with specialized knowledge in tree risk assessment. To get qualified, arborists need to finish a training course and have to pass both a performance-based evaluation and a comprehensive written exam. And to maintain that ISA TRAQ credentials, they need to retrain and retest every five years.

After the qualified arborists have successfully completed the program, they are considered to be: proficient with the basics of limited-visual and tree risk assessment, as specified in ISA?s Best Management Practices: Tree Risk Assessment; know the principles of advanced diagnostic methods for evaluating tree risk; understand how to gather and synthesize data to evaluate tree risk; and make reasoned recommendations and judgments for mitigating identified risk.

The tree care services offered by Cicoria Tree include tree pruning, tree removal and stump grinding, emergency tree service, and cabling and bracing. They can provide pruning services using cutting edge equipment and guided by the knowledge and experience of their certified arborists. Their pruning service is certified to comply with the International Society of Arboriculture (ISA), the Massachusetts Arborist Association (MAA), and the American National Standards Institute (ANSI) A-300 Standards. They can also provide vista pruning which is a directed and selective pruning and removals service to enhance woodland views or distant views of woodlands. Their experienced climbers and certified arborists can offer this service using aerial lifts and radio communication with staff on the ground to make sure the requirements are met.

They also provide emergency tree service for those situations when a tree has to be removed as quickly as possible for whatever reason, such as after a storm and a tree must be removed because it has fallen on the property, or a tree has been damaged severely and poses a threat to the safety of people.

Started in 1981, Cicoria Tree and Crane Service is a comprehensive tree care company that is family owned and operated in Beverly, Massachusetts. Every member of their team truly cares about trees and are committed to provide customer satisfaction. Proof of their commitment to excellent customer service is the string of five-star reviews they have been receiving from satisfied customers. They have already provided their services to thousands of North Shore residents in their more than four decades in the industry. They are the only independent tree care company in the area that has been awarded a Tree Care Industry Association (TCIA) Accreditation. The TCIA Accreditation is a third-party consumer confidence verification program designed to make it easy to find those qualified tree care companies who provide their services in an ethical, legal, and safe way.

Those who are interested in learning more about the tree services provided by Cicoria Tree and Crane Service can visit their website or contact them on the phone or through email. They can be contacted 24 hours a day, at any day of the week. Those who want to know their exact location and other important information or check out the 5-star review of Cicoria Tree Service can visit their Google Maps page.
