

Acacia Dental Group Is Offering Pain-Free Wisdom Tooth Extraction in Woden Valley

September 14, 2022

September 14, 2022 -
Canberra residents looking for wisdom tooth removal services can now turn to Acacia Dental Group, a family-owned and operated dental clinic that has been serving the Woden Valley community since the 1970s.

Dr. Mallik, the current owner of Acacia Dental Group, talks about one of the most oft-requested dental services at his clinic by saying, ?Wisdom teeth are the third molars in the very back of the mouth. They do not always need to be removed if they are healthy and positioned correctly. However, erupting wisdom teeth can grow at various angles in the jaw, sometimes even horizontally. When wisdom teeth don't have room to grow properly, they can cause problems such as gum infections, tooth decay, cysts, irregularities of the jaw, and more. We see scores of patients regularly who are struggling with this very common dental problem. You can try painkillers to temporarily subdue the pain. Some other solutions include removing the gum that the wisdom tooth is brushing against (Operculectomy) or removing the crown of the wisdom tooth (Coronectomy). However, in most cases, the recommended course of action is to have the wisdom tooth removed completely. If you are facing a dental emergency due to an erupting wisdom tooth, get in touch with Acacia Dental Group and let us help you determine the best solution for impeccable dental health.?

At Acacia Dental Group, the dentists carry out wisdom tooth extraction using a procedure that is designed to minimize pain and discomfort. It begins with the doctor numbing the patient?s tooth, jawbone, and gums that surround the area with a local anesthetic. The tooth is then firmly rocked to widen the socket for removal. Sometimes the patient?s teeth might require sectioning, a process in which the tooth is cut into sections and each section is removed one at a time.

The doctors at Acacia Dental Group also suggest that their patients follow some post-tooth extraction home care techniques including biting on a gauze pad to control the bleeding, using an ice pack or something similar to keep the swelling to a minimum, using pain medication, and resuming one?s normal dental routine after 24 hours.

Acacia Dental Group?s dentistry specialties include general dentistry, dental implants, cosmetic dentistry, and orthodontic dentistry. The diverse dental treatments offered at the Woden Valley clinic include tooth fillings, tooth extraction, root canal treatment, fissure sealants, periodontal maintenance, dentures, nightguards and splints, mouthguards, crowns, and bridges, CEREC crowns, Inlays & Onlays, veneers, teeth whitening, adult braces, kid braces, Invisalign, and more.

Acacia Dental Group is run by the husband-and-wife duo of Dr. Mallik and Sirisha Yalamanchili who each have decades of experience in dentistry. Together, the two have stayed true to the founding ethos of Acacia Dental Group and have maintained the Woden dental clinic?s excellent track record of providing high-quality dentistry services. The appreciation that Acacia Dental Group has received from the local Woden Valley community over the years can be seen in its almost flawless rating of 4.9 out of 5.0 on its Google My Business page from 94 reviews.

An excerpt from one of the reviews talks about the pain-free wisdom tooth removal procedure and the attention the reviewer received from the clinic?s staff by saying, ?Today Dr. Mallik performed some wisdom teeth extractions for me. I am terrible with these things and was beyond terrified about having it done, nearly backing out several times. I am so glad I didn?t. Dr. Mallik was amazing! The whole thing was completely painless including the needle to numb my gums. His manner was so caring, and he checked on me every few mins to make sure I was ok. His assistants are equally as lovely, putting me at ease, reassuring me, and holding my hand during the whole thing.?

Readers looking for the most reliable and affordable wisdom tooth extraction in Woden, Canberra, can contact Acacia Dental Group at (02) 6281 2222 to make inquiries or to book an appointment.
