Sydney Dentist Dr. Theo Spyrakis Is Championing The Revolutionary All-On-4 Dental Implants Procedure

September 14, 2022

September 14, 2022 -
Bexley Dental is helping New South Wales residents discover the game-changing benefits of the All-On-4 Procedure, a cost-efficient and graft-less implant dentistry solution that provides qualified patients with a fixed full-arch prosthesis on the day of surgery. The Sydney dental clinic offers its services under the guidance of Dr. Theo Spyrakis, regarded by many as New South Wales?s most illustrious dental implants dentist and All-On-4 Specialist.

The All-On-4 procedure enables dentists to replace a patient?s upper or lower set of teeth with just four titanium alloy implants that act as a support mechanism for the placement of a new set of fixed teeth. The choice of material for the implants is fully biocompatible while also having enormous tensile strength. The All-On-4 procedure also solves the biggest issue that prevents some patients from being eligible for dental implants. Some patients might not have the sufficient bone structure required to support conventional implants. However, by installing posterior implants that are tilted 45 degrees towards the rear of the mouth and placed into the anterior maxilla, the All-On-4 procedure enables most patients to get implants without having to undergo bone grafting. The All-On-4 procedure also uses fewer implants than conventional procedures which may require 6 to 8 implants to support a full fixed bridge.

At Bexley Dental, all All-On-4 procedures are administered by Dr. Theo Spyrakis, a general dentist with a focus on dental implants. Having served the Bexley community since 1990, the dentist has always prioritized his patients? well-being and has continuously updated his skills to serve them better. He has specialized in implant dentistry since 2007. In 2015, upon recognizing the revolutionary benefits offered by the All-On-4 procedure, he studied it under the mentorship of Dr. Paulo Malo, the creator of the treatment itself. Today, he has a distinguished record of having worked with trailblazing companies in the implant dentistry field such as Nobel Biocare, Zimme Biomet, Astra, and Neodent systems.

In an Instagram post published on 11th September 2022, Dr. Theo Spyrakis proudly announced that Bexley

Dental has been certified as an All-On-4 Centre of Excellence by Nobel Biocare, a leading innovator of implant-based dental restorations. Dr. Theo thanked the company for the distinction by writing, ?This designation ensures all our patients are receiving treatment from a center that places implants with the AllOn4 treatment concept and is a trusted source. Thank you for the recognition @nobelbiocareau.?

Dr. Theo?s expertise with the All-On-4 procedure along with his excellent conduct with all his patients is reflected in the many 5-star reviews his services have received over the years. One Bexley Dental reviewer described their experience with Dr. Spyrakis by saying, ?I would highly recommend Dr. Spyrakis. He and his lovely staff went above and beyond in what they did for me. I had All-On-4 implants and Dr. Spyrakis is an absolute perfectionist in what he does, explaining the procedure, and what to expect with my treatment and outcome which, I must say, I?m absolutely delighted with the result. if you?re thinking about All-On-4 this is the man to go to without a doubt, you won?t be disappointed. He?s the best.

Another client compared the treatment they received at Bexley Dental with another local unnamed NSW dental clinic by saying, ?I have had 2 All-On-4 operations. What a difference! My experience with Dr. Theo and his team at Bexley Dental was far superior. I came to Dr. Theo Spyrakis because my first experience at another Sydney clinic was quite traumatic, and I couldn't bring myself to go back there. At Bexley Dental the whole team is very friendly, I was never kept waiting for my appointment, the operation process itself was very efficient and Dr. Theo is a very competent and highly trained All-on-4 surgeon with a manner that makes you feel relaxed from the outset. If you require an All-on-4 operation, I recommend Dr. Theo Spyrakis at Bexley Dental.?

Readers from New South Wales can contact Bexley Dental at (02) 9567 4151 to book an appointment or to inquire about the cost of All On 4.
