GAF Factory-Certified Roofers in Torrington, CT, SJ Winn Construction Receive Glowing 5-Star Recommendation

September 21, 2022

September 21, 2022 -
Torrington, CT roofing company SJ Winn Construction is highlighting a 5-star review that it received on its Google My Business page. The company is urging local Torrington homeowners and business owners to find out how it can help them fix their roofing problems, the same way it helped the reviewer restore their property?s roof to perfect shape.

The GAF-certified Torrington roofing contractor has an impressive rating of 4.7 out of 5.0 on its Google My Business page from 50 reviews. The reviewers generally praise the professionalism of the company?s roofing crew, the way it constantly updates the property owners on the progress of the task, the affordable prices it quotes for roofing materials and labor, its quick turnaround times, and the effort it puts in to help them file a claim with their respective insurance companies. Many of the reviews also acknowledge the roofing company?s dedication to leaving the client?s property as clean as it was when they first arrived onsite.

The highlighted SJ Winn Construction customer review, which perfectly captures the reliability and quality of

its services, says, ?Scott and his team helped when three trees fell on our home. His team was there the day we called to make sure the roof was covered over immediately to avoid any further damage. Scott helped us through the process with the insurance company and got the job completed in a timely manner. I would recommend using SJ Winn Construction!!?

Scott Winn from SJ Winn Construction commented on the reviewer?s experience with the company by saying, ?It is very important for us that our clients get a fast resolution to their problems. We understand the criticality of the services we offer. Any delay in restoring a home?s roof to full strength is just going to cause further damage to the rest of the property?s structure. This is particularly relevant to our storm damage repair services as we often have to help property owners who are usually distraught due to safety concerns. That is why we waste no time when we arrive at a customer?s site. We first formulate a plan to prevent any further damage to the home and then rebuild what was destroyed by mother nature. Throughout the repair process, we meticulously document every detail because we know that those details are going to be important when the homeowner files a claim with their insurance provider. Moreover, our long list of professional credentials and our reputation as one of Torrington?s premier roofing contractors make it very hard for an insurance company to deny the homeowner?s claim. Finally, we also provide a way for clients who don?t have home insurance to fund the repairs by applying for financing with our partners. We want to thank the reviewer for taking the time to leave such a detailed assessment of our services. If you are facing a similar roofing emergency in Torrington, we urge you to reach out to us today for immediate assistance.?

Headquartered in Winstead, SJ Winn Construction only works with the most premium roofing materials that can protect the property against everything including heavy snowfall, hail, UV rays, and high temperatures. Since the licensed and accredited roofing contractor has put in the effort to become a GAF Factory-Certified Contractor it can also give its clients the benefits of the industry?s best warranties. The distinction also means that GAF verifies the company?s local licenses, liability insurance coverage, and quality of customer service, annually, to make sure it follows broader industry practices and meets their high standards.

Readers looking for the best roofers in Torrington CT can contact SJ Winn Construction for all their roofing repair, maintenance, inspection, and replacement needs at (860) 909-8334 or sjwinnconstruction@gmail.com. The company provides homeowners with a free no-obligation estimate that looks for issues related to normal wear and tear such as worn-out areas, leaks, water damage, missing, loose, or broken shingles as well as damage caused by harsh weather.
