One of the reviews praises the delivery technician's attentive driving skills by saying, "I called and asked about availability and they delivered the next day! The driver was cautious with our concrete driveway and placed boards under the wheels to make sure there wasn't an issue when he dropped it or picked it up. We filled it over a week and just called and asked for pick up. It was gone the same day. Easy and convenient! Family owned and it was great to support a local business! We will definitely use them again!"

Another review by a returning customer enthusiastically applauds the company's superb customer service by saying, "This is the second time we have used Rock Creek Containers. They are true professionals. You are treated with friendly, courteous, punctual, respectful care. It is a locally owned business; with them, you will feel as comfortable dealing with friends and good neighbors. They deliver at the promised time even on short notice. We received our dumpster that day! They picked it up at the promised time also. They are very flexible which makes them incredibly easy to work with. Their pricing is very reasonable. I won't consider ever using any other company! This is a service-orientated company that truly puts their customer first! I know, for I have worked in the service industry for over 38 years. I recognize good service and I recognize bad service. Rock Creek Containers gives superb, excellent service! Try them and I am sure you will agree with me!!!"
