

Can A Vasectomy Be Reversed

September 21, 2022

New Braunfels, TX - September 21, 2022 -
Microsurgical Vasectomy Reversals by Dr. Mark Hickman, based in New Braunfels, TX, is offering an all-inclusive vasectomy reversal procedure to all patients. While this procedure can be exorbitantly expensive or difficult to schedule with other providers, Dr. Hickman and his team are committed to helping families get back on the path to parenthood, and their offerings are both more cost-effective and convenient.

The practice?s sole focus is the successful reversal of vasectomies, and many of Dr. Hickman?s patients are men who once thought that they either did not want children or were done expanding their family. While many believe that a vasectomy is a permanent procedure, the truth is that a skilled microsurgical surgeon can undo a vasectomy and repair the damage. Dr. Hickman has been performing this reversal procedure for nearly 30 years, and his career has helped thousands of children come into the world.

Microsurgical Vasectomy Reversals recognizes that patients are more likely to undergo any type of surgical procedure if there are as few obstacles between them and the outcome as possible. The prospect of getting surgery alone can be difficult to contend with, and this can be compounded by high costs as well as the hassle of organizing the time away from work and so on. The practice has opted to eliminate as many

barriers as possible by introducing affordable vasectomy reversal options that suit their patients? budgets.

There are also only two packages to consider at this practice. The first is the microsurgical vasectomy reversal, which costs $3,300 and includes local anesthesia and an oral sedative. Alternatively, the $4,200 offer is performed under IV sedation (administered by a Board Certified Anesthesiologist). Both microsurgical options are all-inclusive with no hidden fees. Further, the practice regularly receives patients from all over the state of Texas and beyond. Microsurgical Vasectomy Reversals is pleased to offer a series of exclusive options for out-of-town patients who require accommodations during their visit.

Microsurgical Vasectomy Reversals comes highly recommended by many parties, not the least of which are Dr. Hickman?s enthusiastic and grateful patients, many of whom once found themselves concerned that they would not be able to have children again. The reasons for this are numerous, but Dr. Hickman says that people tend to believe that undergoing a reversal is either too expensive or too unlikely to work. Fortunately, given his experience in the field, the surgeon is capable of giving patients the highest chance of a successful outcome as possible. This has resulted in many men being able to become fathers again.

J. Deering says, ?My husband and I made a road trip from MN to see Dr Hickman for a vasectomy reversal back in 2012. We ran into car trouble on the way there and had to call to figure out how we?d make the surgery. He had plans the next day, but rearranged his schedule and still made time to see us!! We even needed to bring my 2yr old son, and one of his nurses entertained him so I could be with my husband during the surgery. The reversal went pretty smoothly, and I?m happy to say that 4 & 1/2 years later my husband and I were able to naturally conceive children. I?m grateful for this team and highly recommend them!?

S. Henderson says, ?It was just by the Grace of God I found this office through a Google search. When I made contact with the office, Pat was very helpful with explaining the procedure with different options. I went with the non-anesthesia option. Dr. Hickman was very professional and the surgery went well. The healing process went well. Three months later, my semen analysis confirmed the surgery was a success. I?m thankful the Lord sent me to Dr. Hickman?s office.?

Patients are encouraged to learn more about vasectomy reversals and how they are performed. More information on this, including the surgical techniques used, is available on the clinic?s website, but interested parties are always welcome to get in touch with Dr. Mark Hickman?s team directly and schedule an appointment.
