

Dr. Mark Hickman Is Highlighting Recent Vasectomy Reversal Success Stories at his New Braunfels Clinic

September 26, 2022

New Braunfels, TX - September 26, 2022 - PRESSADVANTAGE -

Dr. Mark Hickman, MD, FACS, from Microsurgical Vasectomy Reversals is touting the many recent successes that his clinic has had, just in the past few weeks, in helping patients affordably reverse their vasectomies.

Dr. Hickman has been helping couples get back the choice they lost, to bring a life into this world, for over two decades now. With more than 26 years of experience as a leading minimally invasive surgeon and more than 1,300 vasectomy reversals under his belt, he has established himself as one of the most prominent experts in the country for the procedure. He boasts of having served clients from all over the world who admire him for his dedication to his work, his high success rate for the procedure, his bedside manners, and most importantly, his ability to provide vasectomies at a cost that is reasonable for most to plan for.

His clinic, Microsurgical Vasectomy Reversals by Dr. Mark Hickman in New Braunfels, Texas, offers two all-inclusive affordable choices for microsurgical vasectomy reversal. The lower-cost option includes local

anesthesia and an oral sedative and can be opted for just \$3,300. A slightly higher-priced option is also available for patients who would like to be completely sedated. This option costs \$4,200 and the patient is under IV sedation for the whole duration of the procedure. It is overseen by a Board-Certified anesthesiologist ensuring strict adherence to all medically advised safety recommendations.

Dr. Mark Hickman's services have received several grateful testimonials over the years which can be perused on the clinic's website. The same love and admiration for the doctor's skills can also be seen on his Google My Business profile which has an overall exceptional review score of 4.8 out of 5.0 from more than 35 reviews.

One of the most recent reviews on the clinic's GMB listing is from a couple who the doctor helped in 2020. It says, "My husband and I flew from Colorado to New Braunfels to have a reverse vasectomy done. The procedure was done Sep 2020. We were pregnant by Feb 2021. Unfortunately, that ended in a miscarriage. But we conceived again in April 2021 and I'm now 28 weeks pregnant. We're expecting this baby in December 2021! We loved our experience with Dr. Hickman. He's a Christian man and we truly felt God's peace during the procedure. Thank you, Dr. Hickman, for enabling us to have one more, sweet baby! Our daughter's existence is thanks to your skillful hands and God's grace!"

Another reviewer praises the experience they had in Dr. Hickman's New Braunfels vasectomy reversal clinic by saying, "I never regret choosing Dr. Mark Hickman. He is very accommodating, pleasant, and makes you feel calm. Not to talk of the nurses. They are second to none. Much love to you all and thanks for making me feel calm throughout the surgery."

Dr. Hickman responded to the reviewers by saying, "I'm glad that my services are going to help you welcome another bundle of joy in this world. As a devout believer of the Christian faith, I'm forever indebted to the One above for giving our lives meaning by sending us his little angels. Each one of God's creations has the power to change the world for the better. The possibility that every new life holds compels me to use my skills and knowledge to the best of my ability and to help as many struggling families as I can. To ensure that no one who wants to enjoy the joys of parenthood is left wanting, I have also tapped into my years of experience in laparoscopic surgery to bring down the cost of vasectomy reversal to a sticker price that is within reach of nearly all Americans. If you are yearning for the same renewed purpose and enthusiasm in life that I've helped countless patients experience, give my clinic in New Braunfels a call for a free consultation. We serve clients from Texas, Louisiana, Oklahoma, and all over the United States."
