

A Large Variety of New Modern Indoor Storage Units Now Open in Daphne AL

September 28, 2022

September 28, 2022 - PRESSADVANTAGE -

Daphne Toy Box Storage is a company that has worked hard to become a prime option in their part of Alabama when someone is looking for extra storage space. That's why the company's Milton Jones Road location near Hwy 181 and Daphne Ave has continued to see additional storage units being added over the years. Now the company is pleased to announce that due to popular demand they have recently opened a new building with various types of indoor storage units.

Daphne Toy Box Storage's co-owner, Jennifer Achee, says, "It's no secret that most people who own a home or have any other type of residential living space in and around Daphne will eventually run out of the room they need to store their extra belongings. When that happens, we are here to help. Our company has worked hard to build one of the premier self-storage facilities that one will find in Baldwin County, Alabama. The new indoor storage units that we just opened will only add to the storage options that we offer to those in our area. We will continue to do whatever it takes to make sure we can have the necessary units and space to handle any storage needs that our valued customers have."

Achee continued by stating that the new indoor storage facility is unique at their Milton Jones Road location because it features both climate-controlled and non-climate-controlled storage units. She also mentioned that this new storage building has 3 different size storage units to choose from including the climate-controlled ones that are perfect for more sensitive storage needs as they have a humidity-controlled atmosphere. Available sizes include 10x18, 10x20, and 10x25 self-storage units.

The co-owner added that customers will also like the fact that these new storage spaces have roughly 8-foot-tall ceilings. The building even has a state-of-the-art surveillance system and other security measures in place to make those that store their items and valuables there feel confident those belongings are always safe. She stated these new units perfectly complement the rest of the storage spaces at the facility too. Other types of highly in-demand storage units at Daphne Toy Box Storage include their more typical 10x20 and 10x30 garage-style units that offer the convenience of being able to back a truck or trailer right up to them. Achee admitted they have also not forgotten about those people that need to store their adult toys. That's why over the years they have added spaces that are perfect to store cars, RVs, and boats.

Those who are or have been customers of Daphne Toy Box Storage often leave reviews on the facility that speak glowingly about it. Leslye Easterling stated, "Great place to store your belongings, well built, secure, and has easy access. Owner is also easy to get a hold of if you have questions or concerns." George Mitchell wrote in his 5-star review, "Fantastic location, complete security system in place, and very well lighted at night. I love this storage facility!" Leslie North proclaimed, "What a convenient location, brand new, plenty of storage options, and the management are super helpful!"

The co-owner of these popular storage units Daphne AL stated that they are very proud of their customer service. That includes everything they have done to make storage rental from them a pleasant experience. Achee clarified this by saying, "At Daphne Toy Box Storage we offer convenient online storage unit rental and 24/7 bill pay to make your storage experience with us simple and efficient. Feel free to look at our available storage units on our website and give us a call if you have any questions or need advice on the right size or type of storage unit for your needs."

The company website features a map that shows the location of the new indoor storage building and the other storage areas on the property are also clearly marked on it. Access to the property is available to renters 24 hours a day too.
