September 27, 2022

Darwen, England - September 27, 2022 -
Get Pixabiz, a digital marketing agency serving the UK, is happy to announce that they are offering a variety of website packages to cater to different needs. They want to emphasise that their sites can be built fast and are affordable because they use foundational templated constructs and then customise them to suit a particular business. This means that not only will the site be up and running in a much shorter time but its front end design, which is what site visitors get to see, will be excellent in both aesthetics and function. As such, the Pixabiz sites are very much suitable for: startups; home-based sellers; small marketing budgets; social marketers/ influencers; secondary websites for SEO purposes; 3rd party platform sellers hoping to sell on their own sites; portfolio websites; personal profile/ CV websites; and marriage websites.

Ismail Ougradar, owner of Get Pixabiz, says, ?I'm not comfortable overcharging and hence I decided to create a community of websites where small business owners can obtain a website with all the features they would need at a fraction of the cost that website designers' charge. Pixabiz website owners also gain a massive advantage by being part of a community of websites from the outset in business. Their website becomes part of the community with higher Google & search engine ranking from day one.?
