Get Pixabiz is a digital marketing agency with more than 17 years of experience in digital marketing, SEO, and digital media services in the United Kingdom. They are ready to assist small businesses with various tools and features. Ismail Ougradar from Get Pixabiz says, ?I've been building websites for over 10 years and find that it is much easier to build a website today than it was 10 years ago. I can put a site together in hours as opposed to weeks when I first started... If it takes me hours to put a site together then there is no need to charge small business owners £1000+ for this. I'm not comfortable overcharging and hence I decided to create a community of websites where small business owners can obtain a website with all the features they would need at a fraction of the cost that website designers' charge. Pixabiz Website owners also gain a massive advantage by being part of a community of websites from the outset in business. Their website becomes part of the community with higher Google & search engine ranking from day one.?
