Peppy Heating and Cooling Makes Debut at Nampa Home and Garden Show

October 12, 2022

Boise, Idaho - October 12, 2022 -
Boise, Idaho-based SHANCO Heating and Air, which is now Peppy Heating and Cooling made its debut at the Nampa Home and Garden Show that was held on September 30th in Nampa, Idaho. The company that has developed the reputation of being The Ductless Expert in the Boise area, presented a full display of ductless products at the show. Some of the consumers at the show indicated their interest in the ductless products, pointing to the display with some of them curious as to what the product was because it was their first time to see them. Some also commented that they had already seen such a product before and that they had heard such products were extremely effective. Some of the attendees got so interested that they scheduled a free consultation appointment for their home. Peppy is the only Mitsubishi Diamond Elite Contractor and they went to the show prepared with a complete display of Mitsubishi ductless products.

The Nampa Home and Garden Show is designed to provide consumers with great ideas for their homes. Attendees get to see unique and innovative ideas and products for the home from more than 100 companies at special show prices. The 27th Annual Canyon County Fall Home Show was held on September 30 to October 2, 2022, at the Ford Idaho Center in Nampa, Idaho.

Peppy had displayed at the Nampa show the complete line of Mitsubishi Mini Splits available in Boise and surrounding Idaho communities. This particular product line is versatile and can accommodate anywhere from one indoor head to up to eight for those who need a whole house zoned heating and cooling system. The single head system is a popular model as more and more people are converting their garages, basements, and attics into living spaces. Mitsubishi has a variety of ductless splits and they offer a range of design alternatives, such as; floor mount, ceiling mount one way, wall mount, and also a ceiling mount four way. They can also offer systems that are compatible with traditional ducted systems, allowing consumers to get the best comfort while benefiting from the best of both worlds.

Brett Shannon, President of Peppy Heating and Cooling, says, ?We're excited to be able to bring this

exceptional product to life. We had a running unit so people could see it, hear it, and feel the ductless experience. Many commented on how unbelievably quiet the unit was. They spoke about how their current heating and cooling was disruptive due to it kicking on and off.?

It is important to note that Peppy had offered at the show a furnace maintenance special for $59 as a way to help consumers experience the Peppy Promise. Many consumers may not realize the value of having their heating and cooling system tuned up on a yearly basis but a regularly scheduled maintenance will help their equipment run at peak performance and even extend the life of their equipment.

Brett Shannon says, ?We won't drop the ball after the install! Some consumers may qualify for a rebate if they convert from electric baseboard heat to ductless. It's a solution that people can count on. We'll be sure to help consumers find out if they qualify and how to apply for the rebate.?

SHANCO Heating and Air, now Peppy Heating and Cooling, was founded in 2016 by Brett Shannon and his wife, Tenley. Their goal was to establish a commercial heating and air conditioning company. However, in their six years in the industry, they noticed that they had been doing more and more residential HVAC services in Boise and realized that they really enjoyed working with residential customers. "From this early experience was born our desire to become the Best HVAC Service Company in Boise, Nampa, Meridian, Caldwell, Eagle and surrounding Idaho areas. A desire which we and our many happy customers feel has been realized." Shannon says.

All of the warranties and Comfort Club memberships that were offered by Shanco will continue to be honored by Peppy Heating and Cooling and the only thing that will be different is their updated brand and name, one that they believe better expresses how they feel on every call.

Those who are interested in learning more about the HVAC services provided by Peppy! can visit their website or contact them on the phone.
