

Snow Removal Service In Mississauga Readies For First Snow

November 19, 2015

November 19, 2015 - PRESSADVANTAGE -

Lawn Masters Peel, a business in Mississauga, ON, Canada, offers a number of seasonal services. With winter and first snow fast approaching, they have launched their yearly snow removal service ahead of schedule. This service is available to residential and commercial properties alike. They encourage all Mississauga residents to contact them as soon as possible to reserve the service.

"When it snows in Mississauga, it snows hard," says Chris from Lawn Masters Peel. "We are there to tackle these issues, helping to clear people's driveways and more. We offer this service every year, but we have improved our service now to include heated driveway systems, which could make driveways even safer than before."

In previous years, Lawn Masters Peel mainly offered driveway clearing services, as well as ice removal. Last year, they added a number of concrete ice safe products to their listing. This year, however, they want to encourage people to replace their driveway with a heated model, thereby preventing any ice from forming at all. In so doing, accidents could be reduced something that is also very important for commercial properties, who could be held liable if ice causes any type of injury to someone.

The company has been in business for over three decades and they have gone from strength to strength. One of the things that have always set them apart is the fact that they continuously improve their services, as they have done this year. Since first opening its doors and includes snow removal Mississauga residents have been full of praise about the business. "Lawn Masters Peel is honest, reliable, professional and, most of all, affordable," says one resident. "I have been working with them for years now and I know that I never have to pay until they have actually completed a job, which they won't start until after they gave me a free, no obligation quotation. Added to this that they offer a 100% work satisfaction guarantee, you really can't go wrong with these."

The landscaping Mississauga business is ready for the snow to start falling. At the same time, they are already preparing for the services that they will have to offer come spring and summer time.
