Trash Bandit Dumpster Rentals, a company based in Randleman, NC, is pleased to announce that they are offering dumpster rental services in Greensboro NC, and neighboring areas. There are many reasons individuals or businesses may want to schedule a residential or commercial dumpster rental in Greensboro. The company has formed partnerships with various leasing agencies, property managers, small business owners, and contractors to provide assistance in managing their waste problems with their all-inclusive dumpster solutions.

Trash Bandit Dumpster Rentals founder Graham Miller said, "If you are looking for a company that cares about your project goals, time frame, and budget, look no further than our team of professionals. We offer a high-quality dumpster rental in Greensboro NC that can handle the trash disposal for any project you're working on. Whether it's a small house renovation or large construction cleanup, our roll-off dumpsters are guaranteed to get the job done. Booking a dumpster rental with us isn't a complicated process. We know how frustrating it is when you try to book something online and it takes forever or doesn't work. Our efficiently designed system is quick and easy and you can have a roll-off rental scheduled in under 5 minutes."

They offer two roll-off dumpsters: the 15-yard dumpster and the 20-yard dumpster. The 15-yard dumpster has a volume capacity of 15 cubic yards and measures 16 feet in length by 7 feet in width and 4 feet in height. Its capacity is equivalent to about six times a regular pickup truck load. This dumpster size is often used for relatively small projects, including the removal of waste and junk from yard waste, repair of a sidewalk or driveway, cleaning out of a large room, such as a bedroom, basement, garage, or attic, various kinds of home renovation projects, such as the remodeling of a laundry room, removal of flooring, walls, and carpet, and installation of kitchen cabinets. More about this dumpster rental company can be obtained from its Facebook page.

The 20-yard dumpster can hold up to 20 cubic yards of waste and measures 16 feet in length by 7 feet in width by 5 feet in height. It can accommodate approximately eight times that of a pickup truckload. It is usually applicable for home remodeling and construction projects, such as kitchen remodeling, yard cleanups, renovation of a master bedroom, attic cleanouts, garage cleanouts, basement cleanouts, and other similar projects.
