

GLUVCO

Safety Equipment Supplier Generously Gives Gloves To Children In Need

November 24, 2015

November 24, 2015 - PRESSADVANTAGE -

Columbus, Ohio based safety equipment supplier, GLUVCO, LTD., is offering a winter promotion that benefits everybody, especially children and families in need. The Give a Glove promotion donates one pair of gloves for every pair that is purchased. The company has stated that whether the gloves purchased are for driving, construction, or snow, the company will still supply one warm pair of gloves for the winter months to those in need. They advise: "Imagine the impact this could have on the children in your community. Better communities. Better future. That's what Gluvco.com is all about."

The promotion, which can be seen online at <http://www.gloveco.com/1-1-give-a-glove/> is described as being designed to help communities and ensure a better tomorrow. While Give a Glove can be described as fulfilling for individuals looking to give back, it offers a greater advantage to companies ordering in large quantities, as GLUVCO, LTD has promised that no matter the number of gloves purchased, they will always match the order. The company writes: "If you purchase a case of 50 pairs of our high-quality work gloves, for instance, we will donate 50 pairs of warm, winter gloves to children in need. Best of all, we'll see to it that your community benefits from the donation. When we say one-for-one, we really mean it. At Gluvco.com, we believe that helping communities today goes a long way toward ensuring a better tomorrow for all."

Those interested in following along with this latest campaign and upcoming promotions can do so by liking the GLUVCO Facebook page. The social media feed gives consumers a look at interesting articles, discounts, and more. The Shop Now link on the site at <http://www.gloveco.com/> also allows for online shopping, linking consumers back to the website where the Give a Glove project is underway.

The promotion couldn't have come at a better time with the cold months of winter ahead, and snow already beginning to fall in many states across the country. GLUVCO, Ltd. encourages businesses and individuals to put in their orders before the weather grows too cold. They have stated that this is the time when families are in the greatest need for warm winter gloves.
