

Brooklyn Drunk Driving Accident Attorney Samantha Kucher Explains Drunk Driving in New York

October 19, 2022

October 19, 2022 -

Brooklyn drunk driving accident attorney Samantha Kucher (https://www.rrklawgroup.com/brooklyn-car-accident-lawyer/) releases a new article explaining the meaning of drunk driving in New York. The lawyer mentions that there are a lot of dangers surrounding drunk driving in New York. Driving a car while intoxicated is a reckless act and it is against the law. A conviction for drunk driving can make a significant impact on a person?s life.

?Closer to home, New York sees a substantial share of injuries and fatalities resulting from accidents caused by driving drunk, with the CDC reporting 3,752 alcohol-involved deaths from 2003 to 2012 in New York state alone. As for New York City, the NYPD reported that in 2018, there were 2,683 accidents involving alcohol throughout the city,? says the Brooklyn drunk driving accident attorney.

The lawyer explains that there are serious injuries for victims of drunk driving accidents. These injuries include spinal cord injuries, traumatic brain injuries, fractures, internal organ damage, soft tissue injuries,

serious head and neck injuries, disfigurement, paralysis, burns, nerve damage, chronic pain, and wrongful death.

Attorney Samantha Kucher also says that having an experienced attorney to help a victim deal with a drunk driving accident is crucial, especially when they?re seeking compensation for their injuries. The lawyer adds that a victim should not need to fight with insurance companies to get what they deserve and this is where a skilled lawyer may be able to help.

In the article, attorney Kucher mentions that before settling with an insurance company, a victim must be able to ensure that the compensation they?re getting is enough for the bills they are going to incur. Without negotiation, the victim may not get what they?re supposed to get since insurance companies may lowball their compensation.

According to the drunk driving accident lawyer, ?Driving drunk is reckless and endangers everyone else sharing the road. It is also against the law. In NYC, we have extensive and complex DUI criminal laws, with charges ranging from infractions to felonies, resulting in penalties that result in license suspension, significant fines, and, often, jail time. If the drunk car driver caused serious injuries or a fatality, the criminal charge will be even more severe.?

Lastly, the accident lawyer emphasizes the importance of having an experienced lawyer if someone has been a victim of a drunk driving accident. Having a skilled lawyer may be able to help the victim receive the compensation they deserve.
