October 26, 2022 -
Jacksonville, Florida - Florida-based Rainbow Notary and Nuptials guarantees to provide safe and secure documents with their remote notary services.

Rainbow Notary and Nuptials claim to utilize a remote online notary platform with KBA, or Knowledge-Based Authentication, which verifies the signer's identity through a license or passport scan. This technology enables clients and notaries to have a face-to-face video conference that is recorded, stored for ten years, and guarantees the transaction's security.

With this innovation, the Rainbow Notary and Nuptials team can notarize several types of documents. Among the common documents they notarize are the following: a passport copy, power of attorney, parental consent, a quitclaim deed, a trust deed, a form for unclaimed property, a request for a duplicate title, and travel papers.

Remote online notarization also allows notaries to sign documents whether they are in the same city or

another country. Rainbow Notary and Nuptials will enable clients to sign documents using a smartphone, tablet, or computer from anywhere in the world. Once signed, clients send it back to Rainbow Notary and Nuptials for their following action to legitimize the documents.

"We have notaries that can remotely notarize documents, whether you're on the opposite side of town or another side of the world," the company says.

The Notary Near Me now has a network of licensed notaries, including Selecia Young-Jones, Michele Klempner, Karen Albert Warren, Beth Briand, Lisa Escobar Rosado, Zouie Morton, and Lisa Marie Carniello. They cater to clients in various locations in Florida and its neighboring areas. They have undergone the necessary training and application requirements; thus, their services are all legal.

Since launching its remote internet notarization service in 2020, the Florida-based company has served many consumers in the region. Moreover, the global pandemic caused by the COVID-19 virus, which also severely affected the United States, emphasized the importance of their remote online notary. It allowed consumers and businesses to speed up their required transactions.

Meanwhile, the remote notary services provider offers a free consultation. Besides online notarization, Rainbow Notary and Nuptials is also the trusted wedding officiant in the area. Additionally, they focus on the needs of their consumers and provide personalized service. To learn more about their services, interested parties can visit https://rainbownotaryandnuptials.com/.
