

Home Inspections By Brick Kicker Now Reaches 21 States

November 20, 2015

November 20, 2015 - PRESSADVANTAGE -

Brick Kicker, a business in Naperville, IL, is proud to announce that their home inspection service is now available in 21 states. The business focuses on delivering both domestic and commercial inspection services. They do this on a franchise basis, and are always looking for new people to become franchisees. Due to a recent increase in the number of people who have taken up their franchise opportunity, they have been able to expand their services across nearly half of all states.

A representative from the Brick Kicker sales department says: "Home inspections or building inspections are vital to the buying process of a property and we are proud of our level of expertise and professionalism. We have recently added new offices in Jacksonville, FL, Sioux Falls, SD, Conejo Valley, CA, and Gwinnett, GA, which means we are present in 21 different states."

By visiting the company's website, people can find the home inspector that is located closest to them. They can then use the online scheduling service to arrange their own inspection. The company wants to encourage those who have used the service to leave a review, enabling them to further improve their services. Many customers have in fact taken up this opportunity. "I am very happy to read all of the wonderful feedback you

have Rob Claus as it makes me feel reassured that our new home being purchased in Naperville will be inspected thoroughly," says Carrie Toomey. "Not being able to be there in person today with my husband, due to our children still being in school here in Vermont, is hard for me, but I am glad to hear that we are in good hands!"

Brick Kicker sets incredibly high standards for their residential and commercial inspection operations. As such, all their staff members must be educated and trained to specific levels and be committed to updating this training as and when required. Furthermore, those interested in joining the home inspection services franchise have to meet a number of other specific requirements. It is recommended to contact the company as soon as possible to express an interest.
