

Customers Vote Skin Vitality Top Botox Provider In Canada

November 20, 2015

November 20, 2015 - PRESSADVANTAGE -

In a recent poll, Skin Vitality, a business in Toronto, ON, Canada, was voted the best Botox provider in Canada by their customers. The business, which also provides a variety of other cosmetic procedures, has welcomed their award and sees it as a testament to the fantastic service they provide to their many patients. They intend to continue with their work and to remain up to date with the latest developments in cosmetic medicine and technology.

"We are so pleased to have been voted best in Canada for our Botox treatment," says a representative from Skin Vitality. "We have always been committed to offering our patients the highest quality and safest treatment and it is nice to hear that this has been appreciated. We look forward to welcoming more patients through our doors."

Botox injections have become increasingly common over the past few years. The product was initially developed to help people with migraines, excessive sweating and uncontrollable muscle spasms. It was, almost by accident, discovered that it could also help in the treatment of wrinkles and signs of aging. The United States truly spearheaded the Botox revolution, but Canada is quickly catching up in terms of numbers

of clinics and treatments per capita.

Skin Vitality is a very respected clinic that was in business long before Botox ever became popular. They offer a range of skin care procedures, most of which are non-invasive or minimally invasive. They provide their services across eight different locations throughout Canada. Their services have been very positively reviewed, which is what brought them to the attention of the consumer test in the first place. "I really love Skin Vitality!" says Therese. "I have had Botox and fraxel done here and they were great with me! I had one experience with fraxel that I wasn't overly pleased with and they didn't hesitate to help me out so that I would be satisfied."

The company also offers fat and cellulite reduction services, which have proven to be equally popular. They recommend that any interested patients should contact them online in order to book a free initial consultation to discuss requirements and possibilities.
