Owner Julian Contreras founded the company to provide reasonably-priced and efficient waste disposal services for residential and commercial clientele. ?It?s our goal to handle the messy and often painstaking part of the waste removal process so that our customers can focus on the project at hand,? Julian said. ?We?ll deliver a bin at the time and place of your choosing so that all you have to do is load it and give us a call when you?re ready for us to haul it away.?

Dumpster rentals are often used for repair, renovation, cleanout, demolition, and development projects to help contain bulky waste and materials conveniently and safely. The company partners with industry-leading manufacturers to provide heavy-duty bins that are driveway-friendly and easy to load. ?Our open-top containers allow customers to throw junk in at their own pace, so you don?t have to worry about loading up a truck or messing with trash bags,? Owner Julian Contreras said. ?Just load up the bin and let our team handle the rest.?

The company offers three dumpster rental options, including a 7-yard dumpster for dirt or concrete, a 15-yard dumpster, and a 20-yard dumpster. The 7-yard begins at $475 for up to one day of rental time and measures 12? long by 8? wide by 5? high with one ton of waste disposal included in the base price. Additional days and extra weight are available for purchase at $20 per day and $80 per ton.

The 15-yard bin measures 12? long by 6? wide by 5.5? high and begins at $380 for up to one day of rental

time with one ton of waste disposal included in the base price. Additional days and extra weight are available for purchase at $20 per day and $80 per ton.

The 20-yard bin measures 14? long by 8? wide by 5? high and begins at $420 for up to one day with 1.25 tons of waste disposal included in the base price. Additional days and extra weight are available for purchase at $20 per day and $80 per ton.

As an all-inclusive waste management service provider, the company also offers junk removal for commercial and residential clients. The company specializes in full-scale cleanouts, hot tub removal, appliance removal, and other waste disposal efforts. Examples of items that can be removed include mattresses, hot tubs, couches, refrigerators, construction materials, yard waste, bookcases, chairs, cubicles, tables, desks, and general garbage. The company offers an online junk pricing guide to help customers estimate how much will be spent during the process.
