Peppy Presents at the Boise Home & Garden Show

November 08, 2022

Boise, Idaho - November 08, 2022 -
Peppy Heating and Cooling, whose new website can be visited at callpeppy.com, has established a solid reputation for its services in the Boise, Idaho area. They have done this by providing quality HVAC services combined with excellent customer support. It?s also a company that prides itself on carrying only superior heating and cooling products.

Peppy is not afraid to rent space in many of the Boise area?s home and garden shows as the company feels its Mitsubishi products are as good or better than any that are made. A good example of this is Peppy Heating and Cooling recently set up a booth at the Boise Home & Garden Show. An event, which according to the company president, Brett Shannon, saw over 200 people visit their booth. He attributed much of this to the fact that people are starting to recognize them as the one and only Mitsubishi Elite Diamond dealer in the area. People are interested in Mitsubishi heating and cooling products because they have become widely known as units that can help home and business owners reduce their monthly utility bills.

Shannon continued by saying, ?Of special interest, was a fully functional Mitsubishi mini-split system. People often commented on how it was so quiet that they barely knew it was there. Others wanted to feel the force of the airflow and how comfortable the heat it produced felt. That?s why we like to appear in the areas home shows so much, it gives those who visit us a chance to touch, feel, and experience our premier ductless systems themselves.?

The company president says they chose to display a ductless mini-split system because they are not only efficient but also offer flexible design options. This is because as the name says, no additional ductwork is needed to make them work. He stated that this makes these systems ideal heating and cooling units for remodels, additions, and when converting detached garages into office or living spaces. Since they do not tap into the existing HVAC system, they also avoid putting more stress on a customer?s existing central heating and cooling system. Shannon also talked about one nice option that Mitsubishi offers for a mini-split system

that many companies don?t. He says, ?Mitsubishi also offers a ceiling cassette, which is a great option for people who are concerned about having a ductless internal wall unit. The ceiling cassette is discreet, takes up no usable space, and goes with any home decor.?

The company president noted that it was also the second time that they participated in a local home and garden show with their new brand and a new name. According to him, people were really enthusiastic about the name because of its friendly vibe. Shannon added that consumers in Boise and the surrounding Idaho areas can continue to count on them to have booths at local home shows. This is all part of the company?s willingness to educate home and business owners on the latest products to come into the heating and cooling marketplace and how they can best use them.

Those that have purchased ductless mini-split systems from Peppy Heating and Cooling often rate the sales and installation process 5 out of a possible 5-stars. Amy Mallard stated, ?We had Peppy Heating and Cooling install a mini-split system in a converted garage space. They did a wonderful job and at a good price. Their follow-up after the initial quote and after the work had been done was much appreciated. They even sent a small thank-you gift after completion. Thank you so much for going that extra step and being on time throughout the process.? Daniel Vellotti proclaimed, ?Really great job you guys. Shout out to Alec for walking us through the process of setting up our Mitsubishi mini-split and the install team that completed the job in one day as promised. Cheers!?

Shannon also mentioned that those that want to know more about their Mitsubishi ductless mini-split systems or any of their other quality heating and air products can refer to their website or contact them by phone.
