Brooklyn divorce attorney Juan Luciano (https://divorcelawfirmnyc.com/brooklyn-divorce-lawyer/) releases a new article that discusses how a New York lawyer may be able to help minimize conflict in a divorce process. The lawyer mentions that conflicts within the family can be emotionally distressing, especially for couples who decide to divorce.

?Divorce is not just the end of a marriage. It also involves the division of marital assets, debts, and living quarters. Your future can be affected by the outcome of a divorce proceeding. There are so many factors at stake financially and personally, it is important to get the advice and guidance of a qualified divorce attorney who can protect your rights and advocate for your best interests,? the Brooklyn divorce attorney says.

The lawyer explains that when an individual is ready to end their marriage, they both deserve dignity and respect. In New York, a divorce petition is filed by a married couple with the NYC family courts. After that, the courts will send a process server who will serve the petition to the other spouse.

Attorney Juan Luciano also explains that after the process server delivers the petition to the spouse, they will be expected to respond. A family court judge could also grant a summary judgment in favor of the petitioner. This will allow the petitioner to obtain a divorce without the spouse who is not responding and having any input in the proceedings.

In the article, attorney Luciano mentions that people often worry about the length of time it will take for the divorce proceedings to be finalized. In New York, there is no state-mandated waiting period for a divorce decree to be finalized. The time it would take for a New York divorce to finish depends entirely on whether there is a contested divorce.

Furthermore, for a couple with no children and who does not have a lot of things to share, a divorce could take as little as six weeks. However, complex divorces could take months to complete. Having a divorce lawyer may be able to help the client understand how long it might take for the divorce to be finalized.

Lastly, attorney Luciano emphasizes the importance of having a skilled NYC divorce lawyer. An experienced attorney may be able to help the client explore mediation so they can speed up their divorce and may also be able to help the client minimize conflict in the divorce process.
