

Brooklyn Personal Injury Attorney Samantha Kucher Discusses How an Attorney May Help in a Personal Injury Claim

November 03, 2022

November 03, 2022 -

Brooklyn personal injury attorney Samantha Kucher (https://www.rrklawgroup.com/brooklyn-personal-injury-attorney/) discusses how a personal injury attorney may be able to help. The lawyer explains that thousands of Brooklyn residents are injured in accidents caused by someone else?s negligence. She also adds that of all New York boroughs, Brooklyn sees the highest number of injury-causing accidents.

?Nearly one in five car accidents in New York City results in an injury. In 2020, despite a decline in car crashes as a whole, the percentage of those causing injuries increased. In that year alone, Brooklyn reported the largest share of those traffic accidents with 35,245,? the Brooklyn personal injury attorney says.

The lawyer discusses that there are a lot of common causes of car accidents. These reasons include distracted driving, impaired driving, speeding, ignoring traffic signs and signals, following another car too

closely, improper lane changes, failing to yield, unsafe backing, and unsafe turns.

Attorney Samantha Kucher also discusses truck accidents in the new blog post. She says that navigating Brooklyn?s busy streets can be tricky, especially when large trucks are added to the mix. There is also a bigger chance of fatality for someone in a smaller vehicle if they collide with a large truck.

In the article, attorney Kucher adds, ?The construction industry is one of the most dangerous industries in the United States. Because of that, New York has some of the most stringent labor laws protecting workers and others who are injured in construction accidents in Brooklyn,? attorney Kucher says.

Additionally, the lawyer discusses that most injuries from construction sites are rarely minor. These injuries are also often caused by the negligence of the property owner or the general contractor. Workers? compensation protects most construction workers, however, there may be limits to what the insurance may be able to cover.

Furthermore, attorney Kucher discusses slip and fall accidents. The attorney mentions that slip and fall accidents are also some of the most common injury-causing accidents in Brooklyn, especially if they involve children or the elderly. Although most slip and fall injuries are covered by insurance, insurance companies are very reluctant to pay these types of claims.

Lastly, the lawyer adds that if someone is injured in an accident caused by someone else?s negligence, they have the right to seek the guidance of a skilled Brooklyn personal injury lawyer. Getting the assistance of an experienced Brooklyn personal injury lawyer may be able to make a remarkable difference in the ability of an injury victim to get fairly compensated.
