Atlanta, Georgia - November 14, 2022 - PRESSADVANTAGE -

Kenneth S. Nugent, P.C., a personal injury law firm based in Atlanta, GA, has received another five star review from a satisfied client. The firm has around 1,500 reviews on Google and has an overall rating of 4.5 out of 5 stars. The firm specializes in helping those who have been injured due to the negligence of another party get the compensation they deserve to help them with their bills and the stress of getting injured and losing income. They also allow the client to have a stronger chance of getting compensated by the insurance companies that may be unwilling to pay a claim.

In the above-mentioned review, Precious M. said, "By far, the best attorney's office ever. From the beginning once you contact them, these guys work with you and it actually feels like they care about you and not the money. My case work, a Miss Tawanda Sheffield was checking up on me regularly and assuring me that my case is being handled well. She was the most professional attorney representative I have ever talked to. When I wouldn't understand anything, these guys would easily explain it to me. At the very end, they sent me a personal letter thanking me for doing business with them. Believe me, you won't go wrong if you hire them and be sure that you will have a positive outcome about your case."

Tim Derrickson, a spokesperson for the law firm, says, "Although we have been receiving so many highly positive reviews from satisfied clients, we still feel happy and excited when we receive them. This is because it shows that we have not wavered in our goal of delivering the best possible service to our clients."

He adds, "Personal injuries come in many forms and in different degrees of severity. Each of these injuries, regardless of size or severity, can disrupt your life and cause harm. If you or your loved one has been injured or harmed due to the negligence of someone else, you should first seek medical attention and then seek legal counsel and call upon a trusted law firm. The Legal Offices of Ken Nugent will send someone to you personally within 48 hours and advise you of your legal rights."

It is important to understand that insurance companies will never willingly pay on an insurance claim. It is not for the best interests of the insurance company to pay every claim that comes along, which is why they have lawyers to check every claim and whenever possible, refuse payment for the victim's medical bills, etc. That is why a personal injury victim must also have legal representation, to have an attorney who will protect their legal rights.

Oftentimes, the key factor is evidence. The personal injury firm will have their investigation team gather as much information as they can about the incident. Having the evidence to prove that the victim is entitled to compensation for the medical bills, lost wages, and emotional distress experienced by the victim and family, is vital. They will file a case that will then send a strong message to the insurance firm and the negligent party.
