Manhattan uncontested divorce attorney Ryan Besinque (https://www.besinquelaw.com/how-much-does-an-uncontested-divorce-cost-in-ny/) releases a new article on his website that explains the difference between a contested divorce and an uncontested divorce. The lawyer mentions that it?s never easy to get a divorce. It can be emotionally and financially stressful, however, some couples find that this is their only option.

?In Manhattan, New York City, and the state as a whole, there are laws that recognize fault and no-fault grounds for divorce. It?s also possible to get a contested or uncontested divorce. Although all of these options exist for those who are looking to end their marriage, the divorce process can still be complex. As a result, it?s always wise to consult with an uncontested divorce lawyer to get a better idea of what might happen and how much it might cost,? the Manhattan uncontested divorce attorney says.

The lawyer explains that a contested divorce means that one spouse wants the divorce while the other spouse doesn?t. This may complicate matters such as child custody, child support, and asset division. A contested divorce also usually needs the legal assistance of a family law attorney or a divorce attorney.

Attorney Ryan Besinque also mentions that in an uncontested divorce, spouses are able to agree that their marriage is beyond repair. Both spouses usually agree in most matters surrounding the divorce and they usually do not need the court to make important decisions for them.

In the article, attorney Besinque adds that most of the time, an uncontested divorce in Manhattan could take anywhere from four to 12 months. The specific duration of divorce before it gets completed can depend on a lot of factors. These factors could include concerns such as alimony, child support, and division of property.

?On average, divorce in New York can cost around $17,000. However, an uncontested divorce can be as cheap as $5,500. That?s in vast contrast to a contested divorce, which can be as high as $50,000 on average,? says that Manhattan divorce lawyer. ?There are fees to consider in addition to those you pay to your attorney. You have to take into account the court fees and other costs related to filing the divorce papers.?

Lastly, attorney Besinque says that if someone is considering divorce in New York, it is important to seek the help of an experienced divorce lawyer. Having a skilled lawyer may be able to help potential clients understand their rights and responsibilities in a divorce case.
