

Southern Piano Service News: Popular Central Virginia Piano Tuner Now Offers Piano Restringing Service

November 18, 2015

November 18, 2015 - PRESSADVANTAGE -

Southern Piano Service's Blanton Bendall, a popular piano tuner and piano specialist, is now offering a new service in Central Virginia and the Greater Richmond Area: Piano Restringing.

Bendall has provided a range of piano services for almost 10 years, including piano tuning, piano moving and storage, restoring, repair, and more. He works with clients in the Central Virginia area, including Ashland, Mechanicsville, Hanover, Henrico, Glen Allen, Goochland, Oilville, Manakin Sabot, Montpelier, King's Charter, Hanover Country Club, Beaverdam, Doswell, Amelia, Farmville, Rutherglen, and many more. His clients also include numerous churches and schools.

On his website, SouthernPianoService.com, Bendall offers informative articles about the various aspects of his work, and provides detailed advice about caring for a piano so it will remain in top playing condition for years to come.

Recently, he has added restringing pianos to his line-up of services. Most people don't realize that "restringing" pianos does not just mean replacing a string or three, but all strings in the instrument.

In addition, the supporting hardware that holds the strings in place will also need to be replaced or rebuilt. "It's a huge project, and we'll move your piano into our workshop while we work on it, and back to your home once it's done," Bendall says.

He also has advice on how to know whether a piano needs restringing. Fortunately, according to Bendall, restringing, is not part of routine maintenance, but is something that usually has to be done only once in several generations. For the right piano, Bendall says it is an investment that will be well worth it. Bendall is happy to talk with piano owners who wonder whether their piano needs restringing - or whether it needs any other repairs or services.

Bendall's phone number is 804-677-2416, and says the best way to get in touch with him is by sending him a text message. His website is <http://southernpianoservice.com>, and more information about restringing pianos is at <http://southernpianoservice.com/piano-restringing-service>.
