

Dandenong Conveyancer Celebrates 5-Year Anniversary

November 18, 2022

November 18, 2022 -
LEAD Conveyancing Dandenong, a conveyancing law firm that operates in Dandenong and across Victoria, celebrated its 5th anniversary on Monday. The celebration revolved around having fun off work and looking back on the milestones of the company for the past half-decade. It is a simple ceremony organised to make the bond of the members of the company stronger. For more information about LEAD Conveyancing Sunshine Coast, visit their official website.

LEAD Conveyancing Dandenong began with the mission to provide a conveyancing team that is always driven to do the right thing, even in the face of adversity. Likewise, their vision is to contribute towards building a better future not just for Australians but also for other races as well. Despite all the hardships, they are committed to maintaining the cosy aura of their office so that all of them can work together harmoniously. They are diligent in helping people, especially first-home buyers.

Furthermore, the celebration also tackled the several achievements of the company for the past five years.

As for Trinh Thai, Legal Director and Conveyancer of the company, reminiscing about what the company has already achieved is an excellent practice to motivate the whole team. "This kind of nostalgia is a good way to remind each of us that we still have a long way to go. Looking back at what we have already done is a celebration because it indicates that we were able to guide, help and lead many people throughout the past years. Looking forward, I hope we still have things to reflect on during our 10th anniversary, and we will strive to make that happen."

Some of the milestones the company have celebrated include the numerous positive feedback from past clients, enhancing features of their official website, adding more conveyancing services to their business and renovating their workplace. One thing highlighted during the celebration was their website's innovative conveyancing fee calculator; it gives visitors a detailed breakdown of the services they offer. Thai stated that the modern tool is only possible with the brilliant minds of their IT department.
