

Commercial Cleaning Service in Atlanta Helps Protect Profits and People During Flu Season

November 09, 2022

November 09, 2022 -
Atlanta, GA - TruShine Services, an Atlanta based commercial cleaning company, has recently published a blog post that discusses the importance of having a professional cleaning company come in and clean and disinfect one's office place.

Flu season has officially started, as flu-like illnesses have been recorded in schools and workplaces across Atlanta. While nearly impossible to predict the severity of this year?s flu season, it is estimated that the absence and loss of productivity caused by the flu could cost employers over 17 billion dollars.

TruShine Services is committed to helping employers protect their people and their profits by taking preventive measures to help keep this flu season at bay.

When asked for a comment about TruShine and the benefits of their commercial cleaning services, owner Carlos Tavarez said, ?At TruShine, we train our team to clean and sanitize your office space to an

industry-leading standard. While at the same time, some cleaning companies or your staff will keep your facilities looking clean, dangerous germs and bacteria thrive on communal items putting your people and profits at risk.?

As Tavarez said, TruShine puts customer service and value at the forefront of its commercial cleaning services and the company?s customers agree. In a recent review, customer Jose Castro Alvarado had this to say about the company and the service he received, ?I tried two other cleaning businesses before this one, and there were issues with quality as well as scheduling. With TruShine I?ve experienced nothing but excellent, responsive communication, and the quality of the clean has been great. I only wish I?d found them sooner! Thanks to Cristell to help me with my process!?.

To learn more about TruShine Services, interested parties may contact Carlos Tavarez. They may also visit the company's website for further information or connect with them through their social media platforms to stay updated with their latest news and announcements.
