Crown Point, IN - November 10, 2022 -

Family-owned and operated Titus and Sons Mini Dumpster Service has created a state-of-the-art online booking system for customers searching for residential or commercial dumpster rentals. The company frequently works with homeowners, property managers, businesses, and contractors seeking reliable and reasonably-priced waste disposal solutions. Those interested in learning more about booking a Crown Point IN dumpster rental are encouraged to visit the company website, browse available container options, and book online with a few simple clicks.

Owner Barbara Titus founded the company in 2006 with the help of her family, with the goal of making it as straightforward as possible for clients to schedule the business' waste disposal services online. ?Everything happens through our smartphones now, and we wanted to offer flexible scheduling options so that our customers could book with ease, anytime and anywhere,? Barbara said. ?Just like any other online shopping experience, you can browse our bin options, make the best choice for your specific needs, and check out with our user-friendly, secure online system.?

Those interested in scheduling a bin rental can navigate to the company?s website, click the ?Dumpsters? tab in the menu header, and browse sizing options. Once the customer has found the best choice for their specific waste removal needs, they can click the green ?Book Now? button next to the price to view more details, including dimensions, rental timeframe, tonnage, extra weight fees, and photos. If the viewer is happy with those details, they can then click the green ?Add to Cart? button to begin the checkout process.

The user will select their service type (homeowner or contractor) and click the green ?Continue? button. The user will then choose their desired drop-off and pick-up dates before viewing their cart. They will then submit contact and billing information, input important dumpster placement information for the company?s drivers, and checkout using any major credit card.

The company will then send a confirmation email to the customer, including a digital copy of the receipt and signed contract. A staff member will be in touch with the customer leading up to the drop-off date to confirm a delivery window. The company emphasizes how simple and stress-free it is to complete a booking via its online system but also encourages interested parties to contact its staff via phone or email with any additional questions.
