

Beverly Hills Chiropractor Is Helping Clients Heal at Home with Mobile Chiropractic Massage Services

December 31, 2022

Beverly Hills, California - December 31, 2022 -
Beverly Hills chiropractor Jochen Chiropractic & Wellness Center is offering local clients the ability to book mobile chiropractic massages and other services to heal in place, wherever they are the most comfortable.

Mobile massages are ideal for clients who can?t travel due to old age or have significant injuries that prevent them from making the trip down to the Beverly Hills chiropractor?s office. Jochen Chiropractic & Wellness Center?s mobile massage services are just as effective and relaxing as those offered in its Beverly Hills chiropractic clinic. The center?s mobile massage therapists carry all the equipment they need for an effective and fulfilling session including a portable massage table and all the related supplies.

The founder of the clinic, Dr. Stephen Jochen talks about the clinic?s mobile chiropractic services by saying, ?Whether you have mobility issues that render you unable to meet us at our luxurious facilities in Beverly Hills or if you have a packed schedule that doesn?t give you enough time, our mobile chiropractic massage

services are all you need to rejuvenate from a long workday. If your chiropractor has recommended a particular set of modalities, just let our office know and we will give you all the details of what we offer patients away from the clinic. If you are a regular client, you know that we already train you in the stretching and relaxation exercises that you should do in your free time. Our mobile chiropractic services in Beverly Hills are just the next step of that paradigm.?

Jochen Chiropractic & Wellness Center offers a wide range of pre-surgical and post-surgical treatments to its clients including chiropractic, chiropractic massage, deep tissue massage, activator adjustment, aromatherapy massage, chair massage, cranial manipulation/adjustment, cupping, drop table adjustment, hot stone massage, lower back pain treatment, massage therapy, myofascial release massage, neuromuscular massage, prenatal massage, shiatsu massage, spinal decompression therapy, spinal/posture screenings, Swedish massage, Tui Na, foot massage, laser therapy, acupuncture, cervical spine manipulation/adjustment, chest pain treatment, craniosacral therapy, diagnostic imaging services, extremity manipulation/adjustment, lifestyle modification counseling, lymphatic drainage, mobile massage, neck pain treatment, skincare, corporate wellness, treatments for children, physiotherapy, reflexology, soft tissue manual therapy, spinal manipulation/adjustment, sports massage, Thai massage, trigger point massage, and virtual consultations.

Clients approach Jochen Chiropractic & Wellness Center, considered by many to be the best sports chiropractor Beverly Hills has to offer, to heal from a wide range of conditions and injuries such as auto injuries, headaches, low back pain, mid back pain, neck pain, sports injuries, work injuries, carpal tunnel, sciatica, scoliosis, and fibromyalgia. The clinic is loved by its Beverly Hills clients and this appreciation is evident in its impressive aggregate rating of 4.7 out of 5.0 from almost 50 reviews on its Google Business Profile.

One of the recent reviews on its Yelp page, where it has a 4-star rating from almost 120 reviews, says, ?My right leg has always been about 2-3 inches longer than my left, and I never thought anything of it. I was an athlete my entire life and never had good posture. I always had lower back pain but was so used to it, that I didn't even realize I was in pain. Dr. Jochen and his team found answers quickly and made me feel comforted by my diagnosis. They are always so welcoming and want what's best for their patients. Every time I go in for an adjustment, acupuncture, and deep tissue, I leave feeling like I can do a backflip (I can't do a backflip, but I sure do feel like I could...lol)! This place will not disappoint you. Health is wealth, and I feel rich when I leave Jochen's!?
