

Alpha Therapeutics' Non-THC Broad Spectrum CBD Products Are Helping Americans Sleep, Heal, And Relax

November 30, 2022

November 30, 2022 -

Alpha Therapeutics is creating powerful and effective CBD & CBG products to help millions of Americans fight the challenges of routine life such as body pain, insomnia, and stress.

The products from Alpha Therapeutics are made from organically farmed hemp and are GMO-free, gluten-free, and completely vegan. Since the company makes use of Broad-Spectrum CBD with no presence of THC, no medical marijuana prescription is needed to buy or use them. Alpha Therapeutics also values product quality and subjects its manufacturing output to periodic rigorous testing from the best laboratories in the country. Moreover, all of the products from Alpha Therapeutics are also wholly manufactured and use raw materials sourced in the USA, in Scottsdale, Arizona. Alpha Therapeutics is very confident in the quality of CBD products that it puts out and thus offers a 100% money-back guarantee on all purchases with free shipping anywhere within the USA.

The lineup of products from the company made using CBD formulated by doctors includes CBD oil products such as the Extra Strength Oil and the Regular Strength Oil, topicals such as the Healing Balm and the Pain Stick, and Calm Sleep, a plant-based sedative. Alpha Therapeutics also makes available two product bundles ? The Extra Strength CBD and Pain Stick bundle and the Extra Strength CBD and Healing Balm bundle.

The company?s CBD oil products help customers with headaches, body pain, and stress relief without the harmful side effects of traditional allopathic medications. They calm the body?s nerve receptors and reduce inflammation. The topicals from Alpha Therapeutics are designed to provide localized pain relief for aging or tired joints and muscles. The topicals get absorbed quickly through the skin providing fast relief that can help customers relax after a long day. Finally, its sedative formulation helps those suffering from sleep issues fall into a deep sleep and wake up feeling refreshed.

Alpha Therapeutics was established by Geoff Dada, a former marathon runner who needed a natural way for his body to recover after the stress of a grueling run. On the company?s website, he writes about his inspiration to investigate CBD as a solution by saying, ?I loved the idea of CBD, but was disappointed by the results of the leading brands. Curious about the quality, I sent several of the leading brands to independent labs to see if their products had the ingredients they advertised. I was shocked to find some products only had a fraction of the CBD stated on their label. So, I began manufacturing CBD using medical quality processes. The results were amazing!?

Many of the customers who enjoy Alpha Therapeutics? products agree with Geoff about the results. On the product listing for Calm Sleep, Alpha Therapeutics' CBD oil for sleep, one reviewer says, ?I used to use melatonin every night, but I would still wake up in the middle of the night and couldn't easily fall back to sleep. This product has helped me fall back to sleep more easily and get a more restful sleep. Highly recommend this product!?

One reviewer heaps a ton of praise on the company?s Extra Strength CBD Oil by saying, ?I have suffered from migraines for years. They are so bad that I have to lie down and miss out on time with my grandkids. Alpha CBD has allowed me to get my life back again!? Another reviewer talks about the efficacy of the Healing Balm by saying, ?I have tried multiple CBD products that promised the moon but delivered nothing. This one promised to stop my hand from hurting. It did just that.?

A customer, who is also an athlete, recommends one of Alpha Therapeutics? bundles by saying, ?As an IFBB professional bodybuilder, I am careful about what I put in and on my body. I tried several brands of CBD before a client recommended Alpha CBD. This by far works the best. After years of surgeries and injuries, I can finally work out as if I am injury free!?
