

Brooklyn Car Accident Attorney Samantha Kucher Explains Third-Party Negligence in a Car Accident in New York

November 16, 2022

November 16, 2022 -

Brooklyn car accident attorney Samantha Kucher (https://www.rrklawgroup.com/what-is-the-definition-of-a-car-accident/) releases a new article explaining third-party negligence in a car accident in New York. The lawyer mentions that a car accident is defined as an accident that happens when a car hits a person or another vehicle and causes significant injury or property damage. In the first half of 2022, the National Safety Council estimates that there have been 21,300 motor-vehicle deaths in the US.

?Due to these devastating statistics, there have been discussions among experts and safety advocates on changing the terminology surrounding car accidents. According to road safety advocates, car accidents connote that drivers involved in the collision hold no fault for causing the incident. On the other hand, car crashes reflect the fact that one or more of the drivers involved made poor judgments that resulted in the accident,? the Brooklyn car accident attorney says.

The lawyer explains that car collisions and accidents can be caused by third-party negligent behavior. Failing to maintain roads and remove hazards that can cause accidents is considered third-party negligent behavior. Defective car parts and systems can also be considered third-party negligence.

Attorney Samantha Kucher says that it is important to seek the help of an experienced attorney when dealing with a car collision due to third-party negligence. It can be difficult to establish negligence and premises liability in a third-party claim. A skilled lawyer may be able to help the victim seek the compensation they deserve.

In the article, attorney Kucher adds, ?One of the most important things to remember when filing a personal injury claim after a car accident is to never take a settlement over the incident before consulting an attorney. Under New York?s no-fault laws, insurance companies are the first entity that people turn to for compensation after an accident.?

Lastly, the lawyer emphasizes that it?s very important to understand your rights when it comes to claiming compensation for a truck accident injury. Having an experienced lawyer may be able to help a victim navigate the complexities of the legal system.
