

EPS Landscaping & Tree Service Offers Landscape Installation and More in Broward County

November 28, 2022

Pembroke Pines, Florida - November 28, 2022 -
EPS Landscaping & Tree Service LLC, a company located in Pembroke Pines, FL, is pleased to announce that they provide various kinds of services, such as landscape installation, in Pembroke Pines and the whole Broward County in Florida. They are also proud to point out the five star reviews they have been receiving from customers. They have an overall rating of 5.0 out of 5 stars on Google, and in one of their recent reviews, Mike L. gave them a five star rating and said, ?Extremely professional. Neat careful. Treats the property like it?s their own. I highly recommend EPS Landscaping for your property needs.?

Greg O'Connell, co-owner of EPS Landscaping & Tree Service LLC, says, ?Our professional landscapers provide residents with landscape services that include landscaping design, landscaping installation (including landscape lighting) and maintenance, and hardscaping. Whenever we undertake landscape services for a client, our goal is to increase both the curb appeal of their outdoor space, as well as its monetary value. Investing in our professional landscaping services will ultimately pay off in a higher value for your home. Look no further whenever you're in need of 'landscaping near me'.?

Their landscape services include: landscape installation; tropical landscaping; pool landscaping; hardscaping; and landscape maintenance. They want to emphasize that homeowners and other property owners can enjoy various benefits with the help of the professional landscapers they provide. One such benefit is customized landscape design because they will use the client?s idea of what the landscape should look like as the basis for coming up with a landscape services plan. The second advantage is the color scheme because their team of designers will provide help to the client in selecting the appropriate colors and types of flowers and plants that will be the best for the landscape design. Third, they will ensure that the landscape design will use innovative concepts to provide a highly functional outdoor space that is also stylish and attractive. Fourth, they will ensure that the landscape services will be at a reasonable price. And finally, homeowners benefit from the 20+ years of experience of EPS.

They also provide tree services because trees are an integral component of the landscape, especially for homes in Pembroke Pines and Broward County. Furthermore, trees offer various kinds of benefits for people and the environment. These include reducing stormwater runoff, air purification, carbon dioxide fixation for photosynthesis, habitat creation, and noise reduction. That is why it is essential to keep the trees healthy, including palm trees, which are common in homes in Pembroke Pines.

To ensure sufficient water for trees and plants, they can also offer help with irrigation and sprinkler systems. The specialists from EPS will visit the home and conduct a survey of the property before they install an irrigation system. A lawn sprinkler system may also be recommended to ensure that the grass and garden beds get sufficient water while saving time for the homeowner with regards to lawn care tasks. They can also provide lawn maintenance service, which is an important part of having a great looking and healthy lawn.

EPS Landscaping & Tree Service has been offering tree care, landscaping, and lawn care services in the Broward County area, particularly in Pembroke Pines, for more than 20 years. They are always focused on providing their services at affordable prices while making sure that they always provide the best quality services. Their services are made available to various locations in Broward County, including Coral Springs, Hallandale Beach, Southwest Ranches, Dania Beach, Hollywood, Deerfield Beach, Pembroke Pines, Fort Lauderdale, and Pompano Beach. And they always ensure that they are providing estimates that are affordable for homeowners.

Homeowners and other property owners who require landscaping and tree removal service in Southwest Ranches and in other areas in Broward County can visit the EPS Landscaping & Tree Service website or contact them through the phone or by email. They are open from 8:00 am to 6:00 pm, from Monday to Friday, and from 8:00 am to 3:00 pm on Saturdays.
