Glowing Review Shows How Paramount Roofing Is Simplifying Emergency Roof Repair in Douglas County

December 06, 2022

December 06, 2022 -

Those who own homes in Douglas County, Georgia are turning to Paramount Roofing & Consulting more than ever before when they have a roof storm damage claim. That?s because this Douglasville-based roofer has shown a knack for lessening the stress and worry when someone?s roof has been damaged in a strong storm. This is well-reflected in a recent glowing review that talked about how Paramount Roofing is simplifying emergency roof repairs in Douglas County.

In the above-mentioned 5-star review, Gary Russell proclaimed, ?Mr. Otis is very professional and very good at what he does. I?ve been going back and forth with my insurance company for years and with the help of Mr. Otis with Paramount Roofing, my insurance company finally agreed to pay for the full roof replacement cost. Mr. Otis gave me a day that the project would be completed, made sure I picked out the roofing material I wanted, and was satisfied with the finished project. He always answered the phone when I called, and he was quick on his feet when it comes to answering any questions I had or making time to come by to address my concerns. I Highly recommended this company, and I will definitely use Paramount Roofing For any future roofing needs. I greatly appreciate Mr. Otis and his hard-working crew at Paramount Roofing for making my house one of the best-looking houses on the block with a brand-new sleek-looking roof.?

Otis Floyd, the owner of Paramount Roofing, says, ?One of the most stressful times for any homeowner is when their roof has been damaged in one of the frequent storms that often pass through our Western Atlanta and beyond service area. That?s because a roof that has been damaged by hail, strong winds, or heavy rainfalls can leak to the point where it causes structural problems to a home and exposes its contents to possibly being ruined. It?s the reason that we have learned to simplify the roof damage insurance claims process and why we are determined to repair storm-damaged roofs in the timeliest manner possible.? He went on to explain that they are prepared to do emergency roof repairs every single day of the year. Once it?s safe to travel out during the daylight hours, they will thoroughly inspect a storm-damaged roof and inform the homeowner of their assessment. They will also help the homeowner process any claims that they want to file with their insurance carrier. He noted that if the storm damage is minor, they will try to do a same-day repair and in the case of more extensive damage, they will cover the roof as best as possible to help prevent further water damage until the proper roofing supplies arrive. The company owner also pointed out that although they do their roof storm damage repairs promptly, they still only use quality roofing supplies and their experienced roofing techs never cut corners as they work.

Another Paramount Roofing & Consulting customer review from a homeowner that needed emergency roof repairs expressed similar sentiments as Mr. Russell. Natasha Hanson stated, ?I had a leak in my roof which caused some water damage inside my home. I put a claim into my insurance and the process began. Mr. Otis with Paramount Roofing called and scheduled to come out to inspect the roof. He was very professional and thorough. He wrote up the inspection and sent it off to my insurance and within a day the ball was rolling on the storm damage repair. Mr. Curtis, who also works with Paramount, came to my home and brought color samples on Saturday. I made my decision, and the roof was done by Thursday. I loved the way they answered any questions and the timeliness of the project. I would definitely recommend their services.?

Both reviews in this article were taken from Paramount Roofing?s Google My Business listing where they have an impressive 5 out of 5-star rating on 144 reviews.

Floyd stated that those who need emergency roof repair in Douglas County and the surrounding Georgia areas can contact them by phone and expect a quick response. He also mentioned that the roof storm damage estimates that they do are always done at no cost to the customer.
