Dentist Welcomes Perth Residents To New Office

December 08, 2022

December 08, 2022 -
Western Australia based eDental Perth is ready to welcome patients at their brand new practice, situated in Rivervale. The clinic operates throughout the week, and their office hours are from 8am - 8pm. Anyone can call the clinic today to schedule their next consultation. See more here: Dentist Perth.

The clinic has taken numerous steps over the years to make their services as accessible as possible, based on the idea that a rapid response to dental issues and emergencies was the best way to ensure everyone in the community could enjoy optimal oral health. As the clinic?s name, eDental Perth, suggests, many of its services and resources can be accessed online, so Perth residents will swiftly discover that they can book an appointment quite easily by simply utilising the clinic?s online calendar. This calendar displays every available slot for the coming week or so, giving interested parties a quick overview of every provider?s availability. As such, patients can book an appointment at a time that they find more convenient for their needs.

Anyone using this calendar will also have an opportunity to indicate why they need to visit the clinic ? and which provider, if any, they would prefer to see. Children and adults alike can therefore check whether their preferred provider is available, then book an appointment for the issue at hand. The clinic makes it a point to highlight that bookings can be made for a variety of reasons, from relatively simple check-ups and whitening consultations to emergency care for a child. Notably, all are welcome to contact ePerth Dental?s office directly over the phone if they wish to discuss their needs in greater detail. This is especially recommended for emergency situations which may require immediate attention. If anyone should find themselves hesitating to get in touch, it is advised that they err on the side of caution and reach out at once. The clinic can help callers determine if their situation calls for a dentist?s prompt assistance. See more here: Dental Clinic Perth.

The clinic offers their community the unparalleled combination of conscientious dentists who utilise state-of-the-art equipment in their practice. The office was purpose-built to deliver a calm, relaxing and modernised experience that supports both a patient?s comfort and oral care. Patients will find that this is

represented in the staff who tend to their needs as well; ePerth Dental?s providers can collectively speak a number of languages and are able to assist with certain special requests as well. Anyone concerned about the nature of their care need only call the clinic today and share what they are looking for. The clinic can often accommodate their requirements.

As C. Mendoza says in a glowing review, ?If you are looking for a dentist that loves their job and cares about your teeth more than you do, this is the best place to go to! Special mention to my dentists, Dr. Phillip and Dr. Tina! Both dentists resolved my toothache very well, and they made sure I was not in so much pain anymore. Not only are their dentists super accommodating but the admin staff are super friendly and nice. They will make you feel super welcome. A lot of private health insurance is also covered here, so definitely a plus. Will definitely keep coming.?

E. Chuntoi similarly shares that, ?I recently had my four wisdom teeth removed under IV sedation at eDental with Dr. Connor and the team, and I was so impressed with their professionalism, friendliness, gentleness and kindness. I was very nervous going in, but they helped me feel calm throughout the whole process. They provided me with pre and post care plans and courtesy calls to see how my recovery has been. I am going to eDental as my regular visit from now on. I highly recommend making eDental as your new regular dentist. Thank you to all the team at eDental.?

Patients seeking general dentistry, emergency dentistry, dental implants, root canal therapy and so on are invited to reach out today. Further details regarding ePerth Dental?s full scope of service can be found on the clinic?s official website. See more here: Dental Implant Perth.
