November 25, 2015

November 25, 2015 - PRESSADVANTAGE -

Zegur, an online gift shop, is happy to announce that they have launched a huge pre-Christmas sale. For one week only they are offering a 30% discount on all their holiday gifts. Purchases can be made through the newly launched <http://zegurdeals.com/> website, or through their shop on Amazon.

"We offer a huge range of fantastic holiday gifts and all of them are now available at a 30% discount this week only," says a representative from Zegur. "I want to encourage shoppers to visit our website, from where they can obtain the coupon codes to enter at the Amazon checkout."

Products on offer include the Zegur travel neck pouch and ID wallet, the Zegur stainless steel RFID blocking technology credit card holder for men & women, and the Zegur high quality money belt lightweight (in a variety of colors). All of these gifts are unusual, in high demand and incredibly useful. The company wants to bring items to the market that are different from the standard gadgets and other similar products, ensuring people can actually find benefits through them.

Zegur is an established company that has reviewed numerous positive reviews on its variety of products. Their money belt, which comes in a range of different colors, has proven to be particularly popular. "This is exactly what I needed for when I go jogging," says one happy customer. "I am very tired of holding things in my hands such as the keys to my car when I go running at the park. This is a very slick and nice material waist bag that has a very flexible strap to go around your waist. I am a size 40 and this didn't even need to be adjusted from when I took it out of the packaging. It has 2 compartments, I find it easier to reach the first compartment being in the front when on my waist. The zippers are not as flimsy as I thought. Plenty of room to hold my wallet, keys and phone, but I just use it for my keys and leave the rest of my things in the car."
