Low Cost Of Vasectomy Reversal In Texas

December 01, 2022

New Braunfels, TX - December 01, 2022 - PRESSADVANTAGE -

Microsurgical Vasectomy Reversals by Dr. Mark Hickman, based in New Braunfels, TX, is offering the community all-in-one options for affordable vasectomy removal. While it is commonly assumed that reversing a vasectomy has to be an unfortunately expensive process, Dr. Hickman and his team are committed to helping families start having children again. As such, many will find that the clinic?s all-inclusive options are much easier on their budget.

Two options are available at the clinic, and they are designed to deliver conclusive results without leaving any room for confusion. Patients who choose the $3,300 option, for instance, will find that it includes the use of a local anesthetic and an oral sedative. The other option, at $4,200, is performed under IV sedation (administered by a Board Certified Anesthesiologist). The latter?s involvement is the primary reason for the difference in price. Whichever option the patient chooses, however, their vasectomy will be reversed.

Microsurgical Vasectomy Reversals is also keen to highlight the fact that their service comes with no hidden fees. When they say their options are all-inclusive, this also extends to situations where complications may arise mid-surgery. Dr. Hickman considers it his privilege to help men regain their ability to have children, and

he has always been adamant about minimizing the obstacles between a patient and a successful reversal. As such, should he discover that more work is needed to ensure the vasectomy, he will continue the procedure. No additional charges will be added after the fact.

A surgeon who has pioneered many microsurgical techniques, Dr. Hickman?s experience in the field is expansive, and he has long focused his career on successfully reversing vasectomies. His patients benefit the most from his commitment to this goal, as they are eager to share in their feedback and reviews. See more here: Vasectomy Reversal Surgerons.

J. Deering says, ?My husband and I made a road trip from MN to see Dr Hickman for a vasectomy reversal back in 2012. We ran into car trouble on the way there and had to call to figure out how we?d make the surgery. He had plans the next day, but rearranged his schedule and still made time to see us! We even needed to bring my 2 year old son, and one of his nurses entertained him so I could be with my husband during the surgery. The reversal went pretty smoothly, and I?m happy to say that 4 1/2 years later my husband and I were able to naturally conceive children. I?m grateful for this team and highly recommend them!?

Another review from D. Dawson says, ?We narrowed it down to two clinics to do, and we immediately felt a great vibe with Pat! Dr. Hickman's office was quick to reply to any of our questions, giving us instructions and ideas we didn?t think of. They took all the pressure off of us! Their bedside manner was very important to my wife and I, and they nailed it! Day of surgery, I felt very comfortable, and they made me feel relaxed. Dr. Hickman has a funny sense of humor and had a great personality to help us with our experience! Meant a lot to us they prayed before the surgery. God wanted us to come here, and we saw why! Thank you for everything! Your recommendations were great too!?

Dr. Hickman has been practicing as a minimally invasive surgeon for nearly 30 years, and he has performed more than 1,300 vasectomy reversals to date. According to the clinic, many patients also come to Dr. Hickman after enduring unsuccessful reversals elsewhere. He is always happy to apply his comprehensive skill to correct such situations.

Microsurgical Vasectomy Reversals invites patients from the surrounding states and beyond to get in touch as well if they want to learn more about the cost of vasectome reversal with Dr. Hickman. The clinic also has an excellent relationship with many local establishments that allows them to offer exclusive arrangements for out-of-town patient accommodations. More information is available on the clinic?s website, and the office can be reached via phone or email.
